

ABSTRACT

Ramadhan, Moch. Iron Murad. 2012. Designing Athletes Homestead in Surabaya.

Lecturers : Pudji P. Wismantara, MT and Agus Subaqin, MT

Keywords: Homestead Athletes, Architectural Combination Metaphor.

Athletes Homestead is a forum which aims to increase the sports facilities for the advancement sports in Indonesia. By building an athlete's homestead can make it easier to control the activities and progress of the athletes who will participate in a game or race. As one of the supporting facilities for East Java developed an interest in sports, this facility also serves to provide the facilities and infrastructure of the athletes and the younger generation to build the next generation.

The theme is taken is "*Architectural Combine Metaphor*". The used concept is the *Athletics*. Athletics is a sport that uses a lot of the basic movements. The basic movements that used at sports are running, jumping and throwing. The movement can be used as an inspiration in the design of athletes homestead.

Basically, the design athlete's homestead is based on the verses of al-Quran, namely: "*Or did they say: "We are united group who will be victorious"*". (Qur'an, Al-Qamar: 44)
