yahya, umar. 2013. **Designing Bromo observatory.** Supervisor Yulia Eka Putrie, MT., sukmayati rahmah, MT. and Agung Sedayu, MT.

**Keywords** : Design Bromo Observatory, The Obscure of the "hibernating Untouched", The Poetics of the Night Sky.

Observatory is a place or building that is equipped and is used to make observations of meteorological, or other natural phenomena, astronomy, especially equipped with a powerful telescope for observing the planets and the stars, so to do observation and research. Given the existence of Bosscha Observatory, which have been converted as a tourist. So that observations can not be significant. It inhibits the science of astronomy has a beautiful through many ways, the observation of (objects - celestial bodies), the calculation time. Scientific discussing beauty, about an order, giving rise to wisdom.

In the design of Bromo observatory. The Obscure of the "hibernating Untouched" theme that would be the message of Astronomy, then obtained a concept that would be able to reveal the value - the value of the beauty of the universe. The Poetics of the Night Sky is a concept that would be able to interpret a depiction indicated by the universe so as to produce a work of architecture that is completely new to astronomy corridor, and the integration of Islam (blessings of order and beauty).
