## TRANSLITERATION GUIDANCE

### A. General

The transliteration guidance which is used by the Sharia Faculty of The State Islamic University of Maulana Malik Ibrahim Malang is the *EYD* (*Ejaan Yang Disempurnakan*). This usage is based on the Consensus Directive (SKB) from the Religious Ministry, Education Ministry and Culture Ministry of the Republic of Indonesia, dated 22 January 1998, No. 158/1987 and 0543.b/U/1987, which is also found in the Arabic Transliteration Guide book, INIS Fellow 1992.

### C. Vocal, Long-pronounce, and Diphthong

In every written Arabic text in the *latin* form, its vowels *fathah* is written with “a”, *kasrah* with “i”, and *dlommah* with “u”, whereas elongated vowels are written as such:

Elongated (a) vowel = â example قال becomes *qâla*

Elongated (i) vowel = î example قيل becomes *qîla*

Elongated (u) vowel = û example دون becomes *dûna*

Specially for the pronouncing of *ya' nisbat* (in association), it cannot represent by “i”, unless it is written as “iy” so as to represent *ya' nisbat* at the end. The same goes for sound of a diphthong, *wawu* and *ya'* after *fathah* it is written as “aw” da “ay”. Study the following examples:

Diphthong (aw) = و example قول becomes *qawlun*

Diphthong (ay) = ي example خير becomes *khayrun*

### D. Ta' Marbûthah (ة)

*Ta' marbûthah* is transliterated as “t” if it is in the middle of word, but if it is *Ta' marbûthah* in the end of word, it transliterated as “h”. For example: الرسالة للمدرسة will be *al-risalat li al-mudarrisah*, or in the standing among two words that in the form *mudlaf and mudlafilayh*, it transliterated as

“t” which is enjoined with the previous word, for example *fi rahmatillah*.

#### E. Auxiliary Verb and *Lafadh al-Jalalah*

Auxiliary verb “al” (لا) written with lowercase form, except if it located at the beginning of word, while “al” in *lafadh al-jalalah* which located in the middle of two words or being or become *idhafah*, it removes from writing. Study the following:

1. Al-Imâm al-Bukhâriy said ...
2. Al-Bukhâriy explains, in the prologue of his book ...
3. *MasyâAllâh kâna wamâ lam yasya" lam yakun.*
4. *Billâhi „azzawajalla.*

Kata Kunci: *Qardhul Hasan*, Pembiayaan, Lembaga Amil Zakat

Pengentasan kemiskinan merupakan kewajiban bagi semua umat Islam, sebagai bentuk *amar ma'ruf nahi mungkar* yang juga merupakan ajaran dasar dalam Islam. Belakangan ini hampir setiap negara terdapat suatu lembaga yang konsen di bidang zakat dan pemberdayaan ummat /masyarakat, salah satunya dengan menggunakan pembiayaan *Qardhul Hasan* yang mana bagi seseorang yang membutuhkan dana untuk memenuhi kehidupan. Ada beberapa lembaga amil zakat (LAZ) khususnya di Indonesia dan Malaysia. Salah satunya lembaga zakat dan infaq El-zawa UIN Malang dan Majelis Agama Islam Melaka (MAIM) Malaysia. Dalam penelitian ini, terdapat rumusan masalah. Pertama, bagaimana perbandingan pembiayaan *Qardhul Hasan* antara El-zawa UIN Malang Indonesia dan Majelis Agama Islam Melaka Malaysia?. Kedua, bagaimana analisis fiqihyyah terhadap implementasi pembiayaan *Qardhul Hasan*?

Penelitian ini tergolong dalam jenis penelitian empiris. Pendekatan penelitian ini menggunakan pendekatan yuridis sosiologis. Dengan teknik analisis deskriptif-komparatif yakni menghubungkan data yang satu dengan data yang lain, kemudian menarik kesimpulan dari data-data tersebut sehingga diperoleh gambaran dengan membandingkan dari masing-masing sumber dan dapat mengetahui persamaan dan perbedaan kedua lembaga tersebut dalam pembiayaan *Qardhul Hasan*. Metode pengumpulan data terdiri dari metode wawancara, dan dokumentasi.

Hasil penelitian ini menunjukkan bahwa: pertama, pelaksanaan pembiayaan *Qardhul Hasan* pada el-zawa dan MAIM memiliki persamaan dalam sumber dana pembiayaan *Qardhul Hasan* yaitu kutipan dana zakat. Sedangkan, perbedaan pembiayaan *Qardhul Hasan* antara lain: el-Zawa memberikan pinjaman dana maksimal Rp. 5.000.000 dengan angsuran 20 bulan, MAIM membeikan pinjaman dana maksimal RM.5.000 dengan angsuran 2 tahun 9 bulan. El-zawa mempunyai dua macam pembiayaan *Qardhul Hasan* yaitu: 1. *Qardhul Hasan* Consumtive, 2. *Qardhul Hasan* Productive, sedangkan MAIM hanya melalui Ashnaf Gharimin. Kedua, praktek pembiayaan *Qardhul Hasan* boleh dilakukan karena dalam Status kepemilikan dan pendistribusian harta zakat di el-zawa and MAIM menggunakan konsep *talfiq* (menyatukan dua pendapat atau lebih dalam satu kasus), yaitu status kepemilikan mengikuti *madzhab Syāf'ī*, dan pendistribusian mengikuti pendapat *madzhab jumhur* termasuk di dalamnya adalah Imam Hanafi.

Keywords: *Qardhul Hasan*, Financing, Zakat Receiving Institutions

Poverty reduction is an obligation for all Muslims as a form of *amar ma'ruf nahi munkar* which become the basis of Islamic teaching. Recently, almost every country there are institutions that concentrates in the field of *zakat* and empowerment of society (*ummah*) whereby, one of the ways by using *Qardhul Hasan* financing for someone who needs funds to fulfill life. There are several of Zakat Receiving Institutions (LAZ) especially in Indonesia and Malaysia. One of them is institution of zakat and infaq El-zawa UIN Malang and Melaka Islamic religion council (MAIM) Malaysia. In this study, there is a formulation of the problem. First, how is the comparative *Qardhul Hasan* financing between el-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia?. Second, how is *Fiqh* analysis against the implementation of *Qardhul Hasan* financing?.

This research is classified into the types of empirical research. Approach this research use the juridical sociological approach. With descriptive-comparative analysis techniques connect data that one with other data, then drawing conclusions from the data so obtained the picture intact and profound by comparing from each source and be aware of the similarities and differences of these two institutions in the financing of *Qardhul Hasan*. Data collection methods consist of interviews, and documentation.

The results of this research show that: First, implementation of *Qardhul Hasan* financing in el-zawa and MAIM have similarities in the funding sources of *Qardhul Hasan*, namely zakat funds. Whereas, the difference between *Qardhul Hasan* financing are: el-Zawa providing a maximum loan of Rp. 5,000,000 in installments of 20 months, MAIM providing a maximum loan of RM. 5.000 in installments of 2 years 9 months. El-zawa has two types of *Qardhul Hasan* financing namely: 1. *Qardhul Hasan* Consumptive, 2. *Qardhul Hasan* Productive, while MAIM only financing on *Ashnaf Gharimin*. Second, the practice of the financing of *Qardhul Hasan* is allowed because the status of ownership and distribution of the assets of zakat in el-zawa and MAIM uses the concept of *talfiq* (uniting two opinions or more in one case), namely the ownership status following the *Syāfī madzhab*, and the distribution of the opinions of the *jumhur* schools including Imam Hanafi.

## CHAPTER I

### INTRODUCTION

#### A. Background of Research

As a religion that believe to *rahmatan lil 'alamin*, Islam does not only regulate the relationship between human and God, but also regulate a role of human behavior to social environment. Instinctively, human being cannot live without the aid of others. The social worshiping (*ibadah*) in Islam has materialized through some religious duties such as *zakah*, *infaq*, *shadaqah*, *waqaf* and *hibah*. Poverty reduction is an obligation for all Muslims as a form of *amar ma'ruf nahi munkar* which become the basic of Islamic teaching. Allah (Glory to Him, The Exalted) said in Quran surah *al-Hadid* verses 11:

مَنْ ذَا الَّذِي يُقْرِضُ اللَّهَ قَرْضًا حَسَنًا فَيُضَاعِفَهُ لَهُ وَلَهُ أَجْرٌ كَرِيمٌ

“Who is it that would loan Allah a goodly loan so He will multiply it for him and he will have a noble reward” (Q.V. *al-Hadid* 57:11)<sup>1</sup>

The verses above explained that Allah invited to do *infaq* in His way with reward to who wants to doing it, so Allah will double the reward by giving a virtue become seven hundred times and will get the gain of revenge in heaven.<sup>2</sup> Lending the useful things to Muslim people is an agreement of *Qardhul Hasan*. It is become a capital effort that available in many institutions which have the money loans services program for underprivileged communities.<sup>3</sup>

*Fiqh Muamalat* covers all the contract of Islamic Finance such as *Musyarakah*, *Mudarabah*, *Murabahah*, *Tawaruq*, *Ijarah*, *Wadiah* and etc. *Qardhul Hasan* is one of them which mean a kind of gratuitous loan that can help all Muslims who need money, especially in certain needs. Thus, *qard* enhances brotherhood among the Muslims. The main objectives of *qard* are: To help the needy fellow people, to establish better relationship among poor and the rich, the mobilization of wealth among all people in the society, to perform a good deed that is encouraged and appreciated by the Allah Almighty and His messenger, to strengthen the national economy, to facilitate the poor to create new jobs market and business ventures by using their

merits, skills and expertise, to establish a caring society, to eradicate unemployment problem from the society.

Recently, almost every country there are institutions that concentrate in the field of *zakat* and empowerment of society (*ummah*), one of the ways by using *Qardhul hasan* contract which is for someone who needs funds to fulfill life. There are several of amil zakat institutions (LAZ) especially in Indonesia and Malaysia. One of them is institution of zakat and infaq El-zawa UIN Malang and Melaka Islamic religion council (MAIM) Malaysia.

The existence of "eL-Zawa" has been benefited by students, employees, *mustadl'afin*, and *mustahiqqin*, both inside and surrounding of UIN Maliki Malang. The study center of *zakat* and *waqaf* (El-Zawa) State Islamic University of Maulana Malik Ibrahim Malang is a center of *zakah* and *waqaf* institution agency inside university. This institution was established based on the Decree of the Rector No.Un.3 / Kp.07.6 / 104/2007 dated January 27, 2007, regarding the Appointment of Zakat Management Center and Zakat Endowments, It is one of the pillars of Islam that must be fulfilled by all Muslims. It is a special unit in Campus which manages and makes *zakah* and *waqaf* as a focus study. The social function of el-Zawa institution is accumulation and distribution activities of social funds (*zakat*, *waqaf*, *infaq*, *shadaqah*, and *hibah*) and *Qardhul Hasan*. Its mean loaning funds activity without financial return with the returning back of loaning funds by borrower as his obligation at once or in installments on the specific time with goods

warranty evidence, and it is only distributed to students and official employees of campus.<sup>4</sup>

Meanwhile, Majlis Agama Islam Melaka (MAIM) was founded on September 28, 1960. It is intended to manage the affairs of the Islamic State of Malacca in addition to assist and advice His Majesty the Yang di-Pertuan Agong. Establishment of Majlis Agama Islam Melaka strengthened by the enactment of the establishment of: Administration of the Religion of Islam (State of Malacca) 2002 Section 4 subsection 1. There shall be a body known as the "Majlis Agama Islam Melaka" to assist and advise the Yang di-Pertuan Agong in matters relating to Islam. As a policy-making body Agama Islam Negeri Melaka, some agencies / institutions Islam was established as the Islamic Religious Department, Mufti Department, Shariah Court and subsidiaries MAIM to implement the decisions or policies made by MAIM.<sup>5</sup> MAIM has the supremacy to collect *zakat* in the country. Because having the authority to make rules and monitoring all matters that relating to the collection, administration and division of *zakat*. Besides, the authorities of collecting or giving permission letter to collect charity donations for the progress of the Muslims in accordance with Islamic law.

The similarities between these two institutions are in function and conviction. As an institution that aspires to become the center of social activity in surrounding of UIN Maliki Malang, el-Zawa launched the

"*Qardhul Hasan*" program in 2008. The program aims to help employees to fulfill the needs of consumptive and productive with proof of guarantee in financing. Whereas Melaka Islamic religious council (MAIM) provides loans to the public/society with a contract of *Qardhul hasan* especially to the *gharimin* without any guarantee in financing.<sup>6</sup> While *Qardhul Hasan's* funding source between the two institutions was taken through *zakat* distribution funds according to their respective countries, with a different system of government between Indonesia-Malaysia and in terms of managing the *zakat* system it is also different. Thus, it will produce differences in the results of financing *Qardhul Hasan* in both institutions.

Therefore, the author wants to know about the implementation of financing products of *Qardhul Hasan* Contract financing between these two institutions. Those phenomenon interest the author to make the research under the title, "*Qardhul Hasan* Financing (Comparative Study between el-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia)".

#### **F. Structure of Discussion**

To provide the thesis systematically and well relationing of each chapter, researcher describes the structures of the thesis as follows:

Firstly, chapter I is introduction. This chapter contains: background of research as the basis reason of writing the research. Then the next are the statement of problem and objective of problem. The statement of problem is the Question of the research that must be answered. The objective of problem explains the achieved result of the research. Furthermore, the significance of the research provides the thinking on *Fiqh* analysis of *Qardhul hasan* (Benevolent Loan) financing. The last is structure of discussion that can give a good basis picture and systematic research plot.

Secondly, chapter II is a Review of Related Literature. In this chapter discusses about literature that consists of the previous researchs and the theories. Previous researchs are informations of research that had been done by previous researchers. Chapter II aims to review the concepts and theoretical basis for research analysis. The previous researchs mention the differences and similarities between previous and current researchs.

Thirdly, chapter III is research method. In this chapter is a research method that is directive step of research as tool of research. This chapter

provides the steps used to discuss the problem of research. The research method explains the tools and methods to analyze the data obtained.

Fourthly, chapter IV is a findings and discussion. In this chapter provides the description of the case. This chapter focuses to see the description of the case, the commentaries of scholars, and Islamic book. This chapter will be processed with entering the data and information from previous chapter. So, the result obtained is accurate and undoubtable.

Finally, chapter V is a Conclusion and Suggestions. The last chapter provides conclusion of research discussion. Then it is completed with suggestion as additional thinking. The chapter is expected to understand about the research.

## CHAPTER II

### REVIEW OF RELATED LITERATURE

#### A. Pervious Research

The related research in *Qardhul hasan* financing contract is not the first to do, particularly relate to specifically discuss about it, which has previously done some research related to this. In this case, the author finds some things have not gotten around by researchers before. Then, this research is not research duplication.

There are some previous researches about the *Qardhul hasan* financing. First, research on contract of *Qardhul hasan* financing had been done by several researchers, such as Fachruddin titled, “*Pengelolaan Al-Qard AlHasan Pada BPRS Margirizki Bahagia Yogyakarta Dalam Perspektif*

*Hukum Islam*”. In the thesis Fachruddin said that the concept of *al-qadr al-hasan* who is did by BPRS Margarizki Bahagia in line with the mission of charity (*infaq* and *sadaqoh*), namely to optimize the empowerment of the funds to help people that face economic difficulties and to help the economically disadvantaged in its efforts to get out of poverty, so that not only is the obligation of a moment for the payer without considering the improvement of the welfare of its recipient.

The same research was also done by Meutika Azizah titled, “*Penerapan Fungsi Sosial (Charity) Pada Baitul Maal Wat Tamwil Dengan Cara Bantuan Modal Dengan Sistem Al- Qardhul Hasan (Benevolent Loan) (Studi Kasus Di Bmt Harapan Kita Bantul)*”. In the thesis Meutika said that finding the privilege and primacy in the implementation of the system of *al-qardhu al-hasan* on BMT Harapan Kita Bantul. The results showed that the application of the system *al-qardhu al-hasan* has a social function that can help and improve the degree of people who are not able to. If the BMT has a *Baitul Mal* which is stronger that the application of *al-qardhul al-hasan* can be implemented properly. This is a concern of *BMT Harapan Kita* to the environment of the surrounding community.

In the other hand, Sapto Hadi Santoso was also done the research titled, “*Pelaksanaan Pembiayaan Qardhul Hasan Di Pusat Kajian Zakat Dan Wakaf El-Zawa Uin Maliki Malang Tinjauan Fatwa DSN-MUI/IV/2001*”. In the thesis Sapto said that the concept of implementation of *Qardhul Hasan* contract in the center of *zakat* study and *waqaf* of El-Zawa. The similarities of

this research with the research proposed by the author are on the general discussion of the contract of *Qardhul Hasan*. The difference on the object of the research; the author examines the implementation of *Qardhul hasan* contract financing between two different institutions. Which is the system and Financing agreement between the two institutions are different between el-Zawa UIN Malang and Melaka Islamic Religion Council Malaysia.

of sharia financial institutions must be guided by the prudence's principle of. In this regard, financial institutions are required to research correctly against customers on the basis of financing principles".

#### b. Types of Financing

Financing is form of provision of fund facilities to fulfill necessity of clients that is a deficit unit. According to its utilities, financing is divided into two criteria as follows:<sup>16</sup>

##### 1) Productive financing, i.e. financing due to production needs.

According to its necessity, Productive financing is divided into two categories as follows:

##### a) Job capital finance

Concerning that job capital finance is financing which is intended to get capital in order business development.

##### b) Investment finance

Investment financing is provided to client for investment purposes, i.e. the necessities for additional capital to conduct rehabilitations, business expansions, or the establishment of new projects.

##### 2) Consumptive financing, i.e. financing which used to fulfill the consumption needs and will be drained upon those needs.

Consumption needs is divided as follows:<sup>17</sup>

<sup>16</sup>Muhammad Syafi'i Antonio, *Bank Syariah dari Teori ke Praktik* (Jakarta: Gema Insani Press, 2011), p. 160.

a) Primary needs

Primary needs or unlearned needs or requirements determined by factors innate to a person or his or her environment, such as for food, security, shelter, although services such as education and medical.

b) Secondary needs

Secondary needs are additional needs, as quantitative or qualitative is higher or more luxurious than the primary needs, as regards the goods, e.g. (foods, drinks, clothes, jewelry, vehicles and properties). As for from of services are (educations, health services, tourisms and entertainments).

c. The Principles of Financing

One the basis of its purposes, sharia financing can be broadly classified into four categories as follow:<sup>18</sup> (1) Financing under the principles of sale and purchase (*Ba'i*). (2) Financing under the principles of leasing (*Ijarah*). (3) Financing under the principles of revenue-sharing (*Syirkah*). (4) Financing under complementary contracts.

<sup>18</sup> Adiwarman A. Karim, *Islamic Banking; Fiqh and Financial Analysis* (Jakarta: PT. Raja Grafindo Persada, 2005), p. 97

Financing under the principles of sale and purchase is used for owning good, whereas financing under the principles of lease is for acquiring services. Financing under the principles of profit-sharing is used for joint ventures involving obtainment of both goods and services. The explanation above as follows:

1) Financing under the principles of sale and purchase (*Ba'i*)

The principles of sale and purchase are applied in connection with the occurrence of a transfer of ownership over property. The bank's profit margin is fixed and predetermined and is an element of the price of property and sale. Sale and purchase transactions can be distinguished according to the modes of payment and time of delivery of the good, namely as follows:<sup>19</sup>

a) *Murabahah* Financing

*Murabahah* (*al-bai' bi tsaman ajil*) financing is more popularly known as *murabahah*. A term derived from "*ribhu*" (meaning "profit"), *murabahah* is a sale and purchase transaction whereby the bank discloses its profit margin to the client. Under a *murabahah*, the bank acts as a seller, while the client as a buyer. The bank's selling price is equal to its buying price from a supplier, albeit plus a margin of profit.

Both parties must agree on the selling price and payment time. Meanwhile, the selling price is quoted in the contract and, once it is agreed, it cannot be changed in the course of the contracting period. In

<sup>19</sup>Karim, *Islamic Banking*, p. 98.

banking, the payment in *murabahah* is invariably done through installment (*bi tsaman ajil. or muajjil*).<sup>20</sup>

#### (1) Legal basis

وَأَحَلَّ اللَّهُ الْبَيْعَ وَحَرَّمَ الرِّبَا (٢٧٥)

“But Allah has permitted trade and has forbidden interest” (QS. Al.Baqarah: 275).

And also in hadith is mentioned: it was narrated from salih bin suhaib that his father said:

حَدَّثَنَا الْحَسَنُ بْنُ عَلِيٍّ الْخَلَّالُ، حَدَّثَنَا يَشْرُ بْنُ ثَابِتٍ الْبَزَّازُ، حَدَّثَنَا نَصْرُ بْنُ الْقَاسِمِ، عَنْ عَبْدِ الرَّحْمَنِ بْنِ دَاوُدَ، عَنْ صَالِحِ بْنِ صُهَيْبٍ، عَنْ أَبِيهِ، قَالَ قَالَ رَسُولُ اللَّهِ . صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ . " ثَلَاثٌ فِيهِنَّ الْبَرَكَةُ الْبَيْعُ إِلَى أَجَلٍ وَالْمُقَارَضَةُ وَإِخْلَاطُ الْبُرِّ بِالشَّعِيرِ لِلْبَيْتِ لَا لِلْبَيْعِ "

"The Messenger of Allah (ﷺ) said: "there are three things in which there are blessing: A sale with deferred payment; Muqaradhah (profit sharing); and mixing wheat with barley for one's house, but not for sale."<sup>21</sup>

#### (2) Pillar of Murabahah financing

(a) Seller (*ba'i*)

(b) Buyer (*Musytari*)

(d) Price (*Tsaman*)

(e) Ijab qabul (*Shigat*).<sup>22</sup>

(3) The good is allowed as object of transaction

(a) House

(b) Motorcycles and/ transportations

(c) Purchase of industrial tools

(d) Purchase of firm, warehouse, and other fixed assets

(e) Purchase of asset which is not against Islamic law.<sup>23</sup>

b) *Salam* Financing

*Salam* is a sale and purchase transaction whereby the object or property of transaction is yet to exist. The object delivery is usually deferred, while the payment is made in cash. The bank acts as a seller, while the client as a seller. At first blush, this seems to resemble a transaction of *ijon* (advance selling); however, under a *salam* transaction, the quantity, quality, price and time of delivery must be fixed and predetermined. According to sayyid sabiq, *as- salam* named as *as-salaf* (introduction) is a selling product with a specific criteria which is still in burden with a hastened payment.<sup>24</sup>

The selling price is quoted in the sale and purchase contract that, once agreed upon, cannot be changed in the course of the contracting

period. A transaction like this commonly applied in the financing of good that are yet to exist, such as in the purchase of agricultural commodities by the bank for re-selling on a cash or installment basis.<sup>25</sup> The general requirements of *salam* financing would be as follows:

- (a) In the purchasing of a product, its specifications of type, size, quality, and quantity must be clearly known; e.g. a purchase of *harum manis* mangoes of quality “A”, at Rp 5,000 per kg, to be delivered at a harvest time within two months.
- (b) In case the products proves defective or unlike as specified in the contract, the producer must be held responsible and must replace the merchandise with that as specified; otherwise he must return the money he has received.
- (c) Considering that the bank does not normally treat the commodities that it buys or orders as inventories, it is allowed to apply a *salam* contract to a third party (second buyer), e.g. to BULOG, whole sellers, or its partners. Such a mechanism is called parallel *salam*.<sup>26</sup>

### (1) Legal basis

يَا أَيُّهَا الَّذِينَ آمَنُوا إِذَا تَدَايَنْتُمْ بِدَيْنٍ إِلَى أَجَلٍ مُّسَمًّى فَاكْتُبُوهُ ؕ  
(٢٨٢)

*“O you who have believed, when you contract a debt for a specified term, write it down.”*

Ibn Abbas mentioned in *salam* financing that:

حَدَّثَنَا هِشَامُ بْنُ عَمَّارٍ ، حَدَّثَنَا سُفْيَانُ بْنُ عُيَيْنَةَ ، عَنْ ابْنِ أَبِي نَجِيحٍ ، عَنْ عَبْدِ اللَّهِ بْنِ كَثِيرٍ ، عَنْ أَبِي الْمُنْهَالِ ، عَنْ ابْنِ عَبَّاسٍ ، قَالَ : قَدِمَ النَّبِيُّ صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ وَهُمْ يُسْلِفُونَ فِي التَّمْرِ السَّنَتَيْنِ وَالثَّلَاثَ ، فَقَالَ " : مَنْ أَسْلَفَ فِي تَمْرٍ ، فَلْيُسْلِفْ فِي كَيْلٍ مَعْلُومٍ وَوَزْنٍ مَعْلُومٍ إِلَى أَجَلٍ مَعْلُومٍ " (رواه ابن ماجه)

*“Narrated that Ibn Abbas said: The Prophet (peace and blessings of Allaah be upon him) offered the two dates for the two and three dates. He said: "Whoever goes up in a pass, it will fall in a known kilo and a known weight for a known time.”. (HN. Ibn Majah).<sup>27</sup>*

### (2) Pillar of *salam* financing

- (a) Buyer (*Muslam*)
- (b) Seller (*Muslam alaih*)
- (c) Production/ good delivered (*muslam fih*)
- (d) Price
- (e) Ijab qabul (*shighat*).<sup>28</sup>

### (3) General Condition of *salam* financing

<sup>27</sup>Heri Sudarsono, *Bank dan Lembaga Keuangan Syari'ah Deskripsi dan Ilustrasi* (Yogyakarta: Ekonisia, 2004), p. 64.

<sup>28</sup>Zulkifli, *Panduan Praktis*, p. 41.

- (a) Purchase of production must be known specifically, e.g. category, type, size, quality, and quantity.
- (b) Considering that the production which is received is fault or unmatched with contract, so the producer (firm/store) must be responsibility due to re-sending its fund or replace the good that suitable.
- (c) Considering that the bank does not normally treat the commodities that it buys or orders as inventories, it is allowed to apply a *salam* contract to a third party (second buyer), e.g. to traditional market trader and partners.<sup>29</sup>

c) *Istishna* ' Financing

*Istishna* ' products are similar to *salam* products except that under the letter, payments by the bank can be made in several installments. Islamic banking under the *istishna* ' scheme is usually applicable in the financing of manufacturing and construction ventures.<sup>30</sup>

The general conditions under *istishna* ' are that goods customary made to order should be clearly specified by their type, size, quality and quantity. The selling price also needs to be quoted in the contract, which, once agreed upon, cannot be changed during its life. If, however,

---

<sup>29</sup>Sudarsono, *Bank dan Lembaga*, p. 64.

<sup>30</sup>Sudarsono, *Bank dan Lembaga*, p. 65

after the contract signing changes occur in the items and price beyond the agreed criteria, all additional costs will be borne by the client.<sup>31</sup>

As for those explanations above then the general conditions under an *istishna* 'financing scheme is as follows:

- (a) Item specification must be clear, such as categories, types, size and quantity.
- (b) Selling price is agreed upon *istishna* 'financing and should not change during a contract.
- (c) Considering that is changed upon ordered criterion and changing price after contract signature, so the whole additional price is still borne by the customer.<sup>32</sup>

As regard of those statements, the pillars of *istishna* 'financing are as follows:

- (a) Seller (*shani* ')
- (b) Buyer (*mustashni* ')
- (c) Good (*mashnu* ')
- (d) Price (*tsaman*)
- (e) Ijab qabul (*shigat*).<sup>33</sup>

## 2) Financing under the Principles of Leasing (*Ijarah*)

*Ijarah* transactions are based upon a transfer of benefit. Its principles are, in essence, no different from those of sale and purchase. The only difference lies in the object of transaction. While the objects in sale and purchase transactions are goods, the objects in *ijarah* transactions are services.<sup>34</sup> By the end of a lease, the bank may be able to sell the leased object to the client. This is why it is called in Islamic banking as *ijarah muntahia bittamlik*, or a type of lease that is followed with a transfer of ownership (title) over the object. Both the lease fee and selling price are fixed at the beginning of the contract.<sup>35</sup>

### c) Type of *Ijarah* According to its Object

Based on its object, *ijarah* consists of:

- (1) The object of *ijarah* is benefit of good, such as leasing car, leasing house, etc.
- (2) The object of *ijarah* is benefit of manpower, such as taxi service, teacher service, etc.
- (3) Revenue received from *ijarah* transaction is called *ujrah*. *Al-ujrah* is the promised reward and paid by user benefit as reward for its profit's received.<sup>40</sup>

### 3) Financing under the Principles of Profit Sharing (*Syirkah*)

The sharia financing products under the principles of profit sharing are as follows:

#### a) *Musayarakah* Financing

The general form of profit sharing undertakings is *musyarakah* (*syirkah* or *syarikah*). *Musyarakah* transactions are based upon the desire of contracting parties to jointly increase the values of their assets.<sup>41</sup> *Musyarakah* encompasses all forms of business undertakings whereby two or more parties combine resources, be it tangible or intangible assets alike.

<sup>41</sup>Saad Al-harran, *Musyarakah Financing: Concept and Applications*, (Selangor: Pelanduk Publications, 1995), p. 2-3

*Musyarakah* is divided into two categories, i.e. *musyarakah* of ownership and *musyarakah* of contract. *Musyarakah* of ownership is occurred due to legacy or other conditions that caused ownership of one asset by two persons or more. Whereas *musyarakah* of contract is occurred due to agreement whereby two persons or more is agreed, that each of them gives a capital of *musyarakah* and share profits and losses.<sup>42</sup>

The general conditions under the *musyarakah* financing are as follows:

- (1) All resources are combined and jointly managed into capitals for a *musyarakahi* project. Each capital owner is entitled to determine business policies for the project, which is run by an executor. Each capital owner is entrusted with the running of the project, but is not allowed to conduct certain such activities as:
  - (a) Mixing the project funds with his or her personal health;
  - (b) Running the project with another party without the consent of other capital owners;
  - (c) Provides lending to other parties;
  - (d) Each capital owner is regarded as ending collaboration in the event of:

- Withdrawal or resignation from the venture;
- Death;
- Legal statement of incompetence.

(2) Any costs incurred during the running of the project within the project's time frame must be collectively known. Profits are to be distributed according to a pre-agreed ratio, while losses are to be shared according to the portion of individual capital contribution.

(3) The project details should be specified in the contract. At the project completion, clients return the fund and it then includes the pre-agreed profit sharing liability to the bank.<sup>43</sup>

#### b) *Mudharabah* Financing

The word of *mudharabah* comes from *adharbu fil ardhi*, is traveling on business trade. Allah said in His book surah 73 verse 20, “and others travelling throughout the land seeking of the bounty of Allah”. Entitled also as *qiradh* which comes from word *al-qardhu* means *al-qath'u* (peice), because the owner is cutting part of its welfare in order to trade and gained profits.<sup>44</sup>

A type of *musyarakah* financing that is particularly popular in Islamic banking is *mudharabah*. *Mudharabah* is a form of joint venture

<sup>43</sup>Karim, *Islamic Banking*, p. 103

<sup>44</sup>Sabiq, *Fikih Sunnah*, p. 31

of two or more parties whereby the capital owner (*shaibul maal*) entrusts capital to the manager (*mudharib*) under a profit sharing agreement.<sup>45</sup> This particular type emphasizes on a joint undertaking involving 100 percentage capital inlays of advanced cash by the *shaibul maal* and skills by the *mudharib*.

In fiqh literature, *musyarakah* and *mudharabah* manifest in the agreement of trust (*uquudul amanah*) that demands high level of integrity and sense of justice. As such, all parties must maintain their respective integrity for the sake of collective interest as any mischief conducts by any one party will truly jeopardize the teachings of Islam.<sup>46</sup> The general conditions under a *mudharabah* financing scheme are as follows:

- (1) The capital to be submitted to a *mudharib* client should be of cash advance in the form of money or goods that can be valued in a monetary unit. If the capital is submitted in several tranches, the arrangement should be clear and prepared upon.
- (2) The output or result of capital management by the *musharib* under a *mudharabah* financing can be calculated in the following ways: (a) Calculation of revenue sharing; (b) Calculation of profit sharing

---

<sup>45</sup>The essential difference under *musyarakah* and *mudharabah* are lies on the magnitude of contributions to management and financial or one of them. In *mudharabah*, the capital comes from single party, whereas *musyarakah*'s capital comes from two or more parties.

<sup>46</sup>Karim, *Islamic Banking*, p. 104

(3) The output is shared according to the agreed stipulation in the contract, payable monthly or otherwise as agreed. The bank as capital owner absorbs all financial losses, except in cases where losses are incurred by the client's carelessness or deviation, such as through embezzlement, deception or misuse of funds.

(4) The bank has the right to supervise management but is not entitled to interfere in the client's business management. If the client deliberately fails in his or her promise, e.g. unwilling to pay or defer payment for liabilities, he or she can be charged with administrative sanctions.<sup>47</sup>

#### 4) Financing under Complementary Contracts

To facilitate financing, usually one or more additional contracts are necessary. Such a complementary contract is not meant to seek profits, but is used to make financing easier. Despite the not-for profit orientation, under a complementary contract it is permissible to ask for compensation for any incurred cost for executing this very contract.<sup>48</sup> However, as for complementary contract are as follows:

##### a) *Hiwalah* (Transfer of credit/Debit)

The purpose of a *hiwalah* facility is to help supplier obtain cash capital in order to carry on with productive activities. The bank

<sup>47</sup>Karim, *Islamic Banking*, p. 104

<sup>48</sup>Sudarsono, *Bank dan Lembaga*, p. 71

is compensated for the cost of credit transfer. To anticipate potential loss, the bank needs to analyze the capacity of the indebted party and verify the transaction between the party that transfers a credit (receivable) and the indebted party.<sup>49</sup>

(1) Type of *Hiwalah*

According to its object, *hiwalah* is divided into two categories are as follows:<sup>50</sup>

- (a) *Hiwalah al-dain*. *Hiwalah* where its object is a debt.
- (b) *Hiwalah al-haq*. Where its object is credit or billing rights.

(2) Product of *Hiwalah*

Some of Islamic bank services products that used a *hawalah* contract are as follows:<sup>51</sup>

- (a) Factoring (*anjak piutang*), where the customers who have debt to a third party transfer the debt to the bank, then bank will be pay its debt up and bank will bill upon a third party.
- (b) Postdated check, where the bank as collector, without pay its debt first.

(c) Bill discounting, basically same as *hiwalah*, but this bill discounting the customer should be paid a fee.

b) *Rahn* (collateral)

According to Syafi'i Antonio, *rahn* is holding one of the borrower's belongings as warranty upon a loan received.<sup>52</sup> The purpose of a *rahn* (collateral) contract is to provide guarantee of repayment to the bank in providing financing. The object of *rahn* must satisfy the following criteria:<sup>53</sup> (1) The object is the property of the client; (2) The object is specific in size, characteristics, and value (based on its real market value); (3) The object can be taken over by the bank although it must not be utilized by the bank.

With the bank's permission, the client may still use the pawned object provided that it will not reduce the value or damage its condition. If the pawned object does become damaged or defective, the client must be held responsible.<sup>54</sup>

In case the client fails to deliver, the bank can execute the selling of the pawned object at the order of a judge. The client has the right to sell it with bank's consent. If the proceeds exceed the liability, the remaining amount belongs to the client.<sup>55</sup>

c) *Qardh* (Loan)

According to Syafi'i Antonio, *qardh* is giving of property to other person that is able to billed or withdraw. In other hand, lend of something without expecting rewards.<sup>56</sup> *Qardh* is simply money lending. In Islamic banking, it is usually applied for any of the four purposes as follows:<sup>57</sup>

- (1) As a bridging loan for pilgrimage, whereby would be pilgrim is given a loan to meet the requirement of prepayment of travel expenses for pilgrimage.
- (2) As cash advance from the sharia from the sharia credit card, whereby a client is given the flexibility to withdraw cash from the bank via ATM. The client has to repay within a given period.
- (3) As small business loan, in the case that under the bank's calculation, any other financing scheme such as sale and purchase, *ijarah* or profit sharing would overburden the client.

d) *Wakalah* (representation)

*Wakalah* is submission, delegation, or assignment. In the context of banking, *wakalah* arises when a client authorizes the bank

<sup>56</sup>Antonio, *Bank Syariah*, p. 130

<sup>57</sup>Karim, *Islamic Banking*, p. 106

to represent him or her in carrying out a certain job, such as L/C book-balancing, bill collection, or money transfer.

e) *Kafalah* (Bank's Guarantee)

According to Syafi'i Antonio, *kafalah* is a guarantee that given by the insurer to a third party due to fulfill the second party's obligation or it's borne.<sup>58</sup> In the context of banking, Bank's guarantee can be provided to secure repayment over a certain payment obligation.

The bank can condition the client to deposit a certain amount of cash for this facility as *rahn*. The bank can also accept the funds under the *wadi'ah* principles. In the execution of such services, the bank's expenses will be compensated.

d. Purpose of Financing

The purpose of financing based on sharia principles is to increase employment and economic prosperity in accordance with Islamic values. The financing must be enjoyed by many entrepreneurs in field of industry, agriculture and trade to support work opportunities and support the production and distribution of goods and services in order to fulfill domestic needs and export needs.

---

<sup>58</sup>Antonio, *Bank Syariah*, p. 132

In general, the purpose of financing is divided into two groups, namely; the purpose financing of macro-level and the purpose financing of micro-level.<sup>59</sup>

As for the macro, financing aims to:

- a) Increase economics; means the society who cannot access as economically, with those financings they can access an economy properly. Finally, it will increase economy level.
- b) Availability of funds for business improvements; means for developing business it needs an additional fund. These additional funds can be obtained through financing activities. Parties whose surplus funds can disburse to party are underage, so it can be rolled out.
- c) Increase Productivity; means funding gives an opportunity for society's enterprise due to increase its productions. Because production efforts will not be able to run without the funds.
- d) Open new job opportunities; by do this sectors through the addition of financing funds, the business sector will absorb labor, this means adding or opening new jobs.
- e) Income distribution; meaning society with effort productive able to perform work activities, their means will earn income from the results of his business. Income is part of the community's income. If this happens then the revenue will be distributed.<sup>60</sup>

<sup>59</sup>Muhammad, *Manajemen Bank*, p. 17

<sup>60</sup>Muhammad, *Manajemen Bank*, p. 18-19

As for micro, financing is given in order to:<sup>61</sup>

- a) Maximize/optimize profit; means that every business opened has the highest goal of generating business profits. Every entrepreneur wants to achieve maximum profits. To be able to generate maximum profit then they need sufficient funding support.
- b) Efforts to minimize risks; means efforts made in order to generate maximum profit, then employers should be able to minimize possible risks arise. Risk of lack of venture capital can be obtained through financing actions.
- c) Utilization of economic resources; means economic resources can be developed by mixing natural resources with human resources and capital resources. If, natural resources and human resources exist, and capital resources do not exist then certainly necessary financing. Thus, financing can basically increase the usefulness of economic resources.<sup>62</sup>

e. Function of Financing

Financing has an important role inside economy, trade and finance. In accordance with the purpose of financing, according to Sinungan financing in general has a function as follows:<sup>63</sup>

<sup>61</sup>Muhammad, *Manajemen Bank*, p. 19

<sup>62</sup>Muhammad, *Manajemen Bank*, p. 19

<sup>63</sup>Muhammad, *Manajemen Bank*, p. 19

a) Utilizing the capital or money

Savers save their money in financial institutions. The money in a certain percentage is enhanced by the financial institution. Entrepreneurs enjoy financing from banks to expand / enlarge their business.

b) Utilizing the usefulness of a good

Producer with financing assistance can produce materials so that the (utility) of the material increases, for example the coconut (utility) becomes copra and then becomes coconut oil / cooking oil. Increasing (utility) rice into rice, yarn into textile and so on.

c) Utilizing of money circulations

Financing disbursed through accounts, entrepreneurs create the growth of circulation of demand deposits and alike such as checks, demand deposits, money orders, promissory and so on.

d) Economic stability

In the unhealthy economic conditions, stabilization measures are basically directed at several efforts as follows:<sup>64</sup>

- 1) Inflation controls
- 2) Increased exports
- 3) Rehabilitation of facilities
- 4) Fulfill the basic needs of society.

---

<sup>64</sup>Muhammad, *Manajemen Bank*, p. 20

e) Increase national income

Increased business means increased profits. When this advantage is cumulatively developed again in the sense of the word developed into the capital structure, then the increase will take place continuously.<sup>65</sup>

## 2. The Overview of *Qardhul Hasan*

### a. Definition

According to language *Al Qardh* is cutting.<sup>66</sup> It is said, for example "I am doing *qardh* against something by using scissors". *Qardh* is something you give to someone who someday you will ask again. It's as you cut it off your belongings. The loan itself is sometimes be treasure and honor. The terminological meaning of lending is to surrender the property to the person who uses it to be returned instead of a moment.<sup>67</sup>

*Qardul Hasan* Loan is one of Islamic loan products in realizing its social responsibility in appropriate with the Islamic thought. In this case, the financial institutions concerned do not earn income, because it is forbidden to request for any reward from the recipients of *Qard*.<sup>68</sup>

According to the *Fiqh* experts, *al qardh* is to give a treasure to others to be returned without any additional. *Al Qardh* (borrowing) is allowed and justified by Sharia. There is no difference of opinion among the scholars in this regard. People

may claim to want to borrow. This is not a bad thing, even people who will be lent it is recommended (*mandub*).

*Al qardh* as one of the basis of product transaction of Islamic banking financing refers to Act no 21 years 2008 article 1 paragraph (25) letter d, article 19 paragraph (1) and (2) letter e, and article 21 letter b number 3. According to this Law *al-qardh* is interpreted as “the loan agreement to the customer with the provisions that the customer is obliged to refund the funds it’s received on certain time”. According to the Indonesian DSN Fatwa:

- a) That Islamic financial institution (LKS) in addition to as commercial institutions should be able to act as a social institution which can improve the economy to the fullest.
- b) That one of the means of economic improvement that can be done by LKS is the channeling of funds through the principle of *Al-Qardh*, which is a loan agreement to the client provided that the customer is obliged to return the funds received to the LKS at the time agreed by the LKS and the client.<sup>69</sup>

*Qard al-Hasan* financing is an agreement amongst the bank as a lender with the customer as the recipient of the loan, whether in the form of money or goods without the requirement of any additional or any cost. The borrower

<sup>69</sup>Fatwa MUI, *Dalam Perspektif Hukum dan Perundang-undangan* (jakarta: Puslitbang Keagamaan Badan Litbang dan Diklat, 2012), p. 267

(clients) is obliged to return the money or goods borrowed at the time mutually agreed upon, with an amount equal to the basic of loan.<sup>70</sup>

*Qard al-Hasan* financing is a financing agreement between an Islamic financial institution and a customer deemed eligible to receive priority for a potential entrepreneur. However, there are no capital than entrepreneur's ability and other individuals who are in urgency situation. The borrower is merely required to return the loan principal at maturity and the bank merely gives a true administration fee for the process.<sup>71</sup>

According to Bank Indonesia Regulation Number 7/46 / PBI / 2005 About *Qardh*, *Qardh* is meant to borrowing funds without pay with the borrower's obligation to return the loan principal at once or installments within a certain time.<sup>72</sup>

#### c) Consensus of Scholars (*Ijma' ulama*)

The Scholars have agreed that *Qardhul Hasan* allowed. The Scholar's agreement is based on human nature that cannot live without helping each other. Therefore, borrowing has become a part of life in this world. Islam is a religion that is truly concerned about all the needs of *ummah*.<sup>76</sup>

From the arguments about the obligation of *al qardh* it is known that on essentially borrowing law is *sunnah* for the person who lends and *mubah* for the person who borrows. This is the law of *al qardh* in the usual situation. Sometimes there are changing situations depending on the cause of a borrower. Therefore, the law may change as follows:

<sup>75</sup>Antonio, *Bank Syariah*, p.128

<sup>76</sup>Antonio, *Bank Syariah*, p.128

1) *Haram*

Someone give a loan, but he knows that the loan would be used for haram-like acts to buy a drink of *khamar*, gambling.

2) *Makruh*

The lender knows that the borrower will use his property not for the benefit, but to dissipate and waste it. Likewise the borrower knows that he will not be able to repay the loan.

3) *Wajib*

When he knows that the borrower needs property to support himself, his family, and his relatives according to the size prescribed, while the borrower has no other way of earning it than by borrowing.

d) Fatwa of National Sharia Board No. 19/DSN-MUI/IV/2001 concerning on *Qardh*

First: General Regulations:

- 1) *Al-Qardh* is loans to customers (*muqtarid*) that required.
- 2) Customers *Al-Qardh* shall return the principal amount received at the agreed time.
- 3) Administrative costs are charged to customers.
- 4) LKS may request a guarantee to the customer whenever it is deemed necessary.

- 5) Customers *Al-Qardh* may provide voluntary contributions (additional) to LKS as long as they are not agreed upon in the contract.
- 6) If the customer cannot partially refund or all obligations at the agreed time and LKS has confirmed its inability, LKS may do several things as follows:
  - (a) Extending the repayment period, or
  - (b) Write off some or all of its obligations.

Second: Sanctions:

- 1) Regarding that customers do not show to returns part or all of its obligations and not because of its inability, LKS can impose sanctions on customers.
- 2) Sanctions imposed on customers as referred to point 1 may be..... And no limited to the sale of collateral goods.
- 3) If the guarantee goods are insufficient, the customer must still fulfill its obligations properly.

Third: Source of Funds:

- 1) Share capital of LKS
- 2) The advantages of LKS which set apart, and

- 3) Other institutions or individuals who entrust their *infaq* distribution to LKS.<sup>77</sup>

c. Term and Procedure (*rukun*) of *Qardhul Hasan*

In general aspects of Islamic civil law (*fiqh muamalah*) in the form of good transactions or sale and purchase, lease. Thus, required its pillars and requirements of such transactions, the procedure of *Qardhul hasan* there are four criteria, among others:<sup>78</sup>

a) The borrowing party (*Muqtaridh*)

The borrower should do well to that person and the benefit of the lent goods belonging to the borrower and the goods lent to the lender's property.

b) The lending party (*muqridh*)

The party who provides the loan must be eligible to virtuous and trustworthy to keep the goods

c) Funds (*Qard*)

Funds in a *qardhul hasan* contract must have benefits that may take by borrower and the benefits of non-defect goods due to the agreed use of the agreement.

*Hanafiyah* scholars argue that the *qard* is deemed valid on *mitsil* property, which is does not happen difference that causing a variance

<sup>77</sup>DSN MUI, *Qardh*, Fatwa DSN MUI. No. 19/DSN-MUI/IV/2001 Concerning on Qardh, 3.

in value. Among those allowed are objects that are weighed, measured, or counted.<sup>79</sup>

d) Ijab qabul (*sighat*)

The ijab qabul (*sighat*) is a *lafadz* ie *Mu'ir* (the creditor) is the owner of the goods, and *musta'ir* (the debtor) must be *baligh*, intelligent and the objects that are handed down can be taken advantage or utilized.<sup>80</sup>

The term of *Qardhul hasan* contract in such transactions as explicitly is as follows:<sup>81</sup>

- a) *Qardh* or goods that are lent should the goods have benefits, illegitimate if there is no possibility of utilization, because *qardh* is a contract against property.
- b) *Qardh* cannot be implemented except with the *ijab* and *qabul*, as well as in buying and selling (*ba'i*).

d. Characteristics of *Qardhul hasan* (benevolent loan)

Cost loan for consumer and commercial purposes. However, the other kind of loan known as *Qard-al-hassan* (benevolent loan), identified as a loan for community members who are under financial distress and therefore, has special purpose in the Islamic economic system.<sup>82</sup>

<sup>82</sup>Iqbal Z & Mirakhor A, "Islam's Perspective on Financial Inclusion Economic," *The World Bank*, (2013), pp.179-200.

Key characteristics of *Qard-al-hassan* are as following:<sup>83</sup>

- a) It is a non-rewarding loan (with no expectations of any monetary return) but the borrower is under moral obligation to repay the principal depending on the borrower's financial capacity to do so. The creditor would forego the demand for payment of principal if despite best efforts and good intentions by the borrower; he/she cannot repay the principal due to economic hardships.
- b) The incentives for lenders to extend credit based on *Qard-al-hassan* are clearly benevolent and spiritual as they are abiding by Allah's Command to supply such loans for benevolent purposes. The element of benevolence and expectation of reward from the Creator in this world or hereafter is the expected return instead of any monetary reward. For the lenders, no monetary reward can be monetized for such benevolent act. Sadr and Torabi said make an interesting observation arguing that rational lenders optimize the return to their portfolios by constructing a diverse portfolio of *Qard-al-hassan* lending and investments in risky assets—thus optimizing return on their portfolio through combining monetary and non-monetary returns.<sup>84</sup>

- c) The primary objective of *Qard-al-hassan* is to help poor get on their feet to become part of economic activities in a dignified and cost effective manner. Since poor do not have any material collateral, social capital is the only collateral for extending such credit. This also provides an incentive to poor to perform and be able to have access to such credit in the future.
- d) The practice of *Qard-al-hassan* has also been associated with enhancing harmony among poor and rich segments of the society which leads to more cooperative, collaborative, and caring society.
- e) The institution of *Qard-al-hassan* can be effectively used to eradicate extreme poverty through opportunities to poor to create new jobs market and business ventures by using their merits, skills and expertise.
- f) Finally, *Qard-al-hassan* can serve as tool to enhance financial and social inclusion in the society. By extending credit to poor, they can be brought into the formal financial sector and as they come out of poverty, they are better integrated and included in the society. In this respect, *Qard-al-hassan* is one of the tools to achieve economic and social justice as envisioned by Islamic economics.<sup>85</sup>

e. Sources of *Qardhul Hasan's* Funds

In Islam, since interest is prohibited, a new view of Islamic loan theory needs to be discussed. In discussing *qard*, several studies, among others refer to several verses in the Holy Qur'an. They refer to the following verses, i.e., Chapter al-Baqarah: verse 245, Chapter al-Maidah: verse 12, Chapter Al-Hadid: verse 11 and 18, Chapter al-Taghabun: verse 17 and Chapter al-Muzammil: verse 20. In those studies, they refer to the verses and also al-hadith as to define, and validate the approval of *qard*. The theoretical foundations from these sources, later, were expanded by many scholars such as Tabari, Ibnu Kathir, al-Suyuti, al-Qurtubi, al-Baidhowi and al-Jalalyn.<sup>86</sup>

*Qardhul hasan* has been used as a commercial facility (with some returns) in financial transactions. For example, in Malaysia, it has been practiced in business activities and it becomes the business model as witnessed in the operations of pawnbroking (via Ar-Rahnu scheme). Other countries such as Iran, Indonesia, Pakistan, Bangladesh, Vietnam and others also introduce the same business modal.

The funding of *Qardhul al-Hasan* comes from several categories, are as follows:<sup>87</sup>

- b) *Qardhul Hasan* needed to help small businesses and social needs, which can be sourced from *zakat*, *infaq* and alms funds (*shodaqoh*).

f. Provisions of *Qardhul Hasan* Contract

Based on the DSN fatwa, then the DSN consideration establishing *al-Qard* as a legitimate economic system according to Islam is:<sup>88</sup>

- a) Islamic financial institutions (LKI) as well as commercial institutions should be able to act as a social institution that can improve the economy maximally.
- b) As one of economic improvement that can be handled by LKS is the distribution of funds through the *Qard* principle, which is a loan agreement to the customer with the conditions: that the customer is obliged to return the funds received to the LKS at specified time.
- c) The agreement is in accordance with Islam, the DSN deems it necessary to establish a fatwa on *Qard* to be guidelines by LKS.

As the contract that was occurred, there are some things that to be noticed in some *Qardh* Terms are as follows:<sup>89</sup>

- b) The Customer of *al-qardh* shall return the principal amount received due to certain time.
- c) Administrative costs are charged to customers.
- d) LKS may request a guarantee to the customer whenever necessary.
- e) Customers gives additional (donations) with voluntary to LKS during not permissible in contract.
- f) If the customer is unable to return part or all of its obligations at the contract time and the LKS has confirmed its inability, then LKS may ensure:
  - 1) Extend the payback period
  - 2) Removing (write of) some or all of its obligations.

### 3. The Overview of Zakat

#### a. Definition

*Zakat* is the most prominent feature of an Islamic economic system. *Zakat* is the third pillar of Islam coming only after a declaration of faith and prayer. The word *zakat* appears in eighty-two verses of the Quran and literally means purity, development, blessings and praise but in practice is translated as alms. The social importance of *zakat* is its role in helping in the treatment of poverty; it is seen as a tool for acquiring a more equitable distribution of wealth, for achieving social

stability and solidarity, discouraging hoarding, and encouraging the circulation of capital in the economy.<sup>90</sup>

*Zakat* then is really not a form of charity, but a right of the recipients, which supports its role as a social stabilizer. *Zakat* plays a fundamental role in the economic system, ensuring the proper distribution and circulation of wealth and *zakat* purifies the wealth of the individual, but it also keeps the social, economic and political body or structure of the *Umma* from deterioration”.<sup>91</sup> *Zakat* is thought of as a way to spiritually cleanse oneself and purify one’s money.<sup>92</sup> *Zakat* requires that a donor’s intention of giving be solely as an act of piety.

Literally, the word *zakat* has several meanings: *al-barakah* (blessing), *annamā*” (growth and development), *aṭ-ṭaharah* (chastity), and *aṣ-ṣalah* (clean).<sup>93</sup>

According to Yusuf Qardawi, the definitions of *zakat* are:<sup>94</sup>

- 1) Part of the wealth by specific requirements, which God requires to its owner (*muzakkī*), to be submitted for whom entitled to receive it (*mustahiq*) by specific requirements too.
- 2) *Al-ʿibadah al-māliyah al-ijtimaʿiyyah* which means worship in the field of wealth which has very important position in building up the

society. Therefore, in the *alQur''ān* and *al-Ḥadīṣ*, many commands for paying zakat and also praise for the people who do it.

The etymology of word of *zakat* comes from the Arabic *zaka-yazku-zakah*. Because the base word of *zakat* is *zaka* (Arabic), which means blessing, growing, clean, good and growing.<sup>95</sup> While the term of zakat according to terminology, Zakat is part of certain property which has reached the requirement (*Nisab*) which is required by Allah SWT to be issued to the right receiver with a certain requirement.<sup>96</sup> As already mentioned in the Qur'an:

قَدْ أَفْلَحَ مَنْ تَزَكَّى ﴿١٤﴾

"He has certainly succeeded who purifies himself" (QS: Al-Ala 87:14).<sup>97</sup>

In the term of *syara'*, *zakat* has a divers understanding, including:

- a) According to Yusuf Qardhawi, *Zakat* is certain possessions required by Allah to be given to the righteous.
- b) Abdurrahman al-jaziri opines that *Zakat* is the handover of certain ownership to the righteous with a specific condition.
- c) Muhammad al-jarjani in his book *al-ta'rifat* defines *Zakat* as an obligation that Allah has ordained for Muslims to expend some of their possessions.

d) According to Wahbah Zuhaili in his book *Al-fiqh al-islami wa adillatuhu* defines to kind of four school thoughts (*Madzhab*) :<sup>98</sup>

1) Hanafiyyah

Zakat is defined as the ownership of certain property to particular person/party that has been determined by Shari '(Allah Almighty) to expect His pleasure.

2) Malikiyyah

Zakat is expending a specific part of the treasure which has reached *nishab* for the righteous. When it reaches perfectly and extents *haul*, except minerals, plants and *rikaz*.

3) Syafi'iyyah

Zakat is the name of something to be excluded from property and body in a certain way.

4) Hanabilah

*Zakat* is a mandatory right in certain property for certain groups at specific time.

Meanwhile, in the term of Zakat according to Law number 23 years 2011 concerning about Management of Zakat; zakat is a treasure which must be expended by Muslims or business entities to be given to the righteous in accordance with Islamic Sharia.<sup>99</sup>

<sup>98</sup>Wahbah Az-Zuhaili, *Fiqh Islam Wa Adillatuhu* (jakarta: Gema Insani, 2011), p 177.

<sup>99</sup>Law Number 23 year 2011 Concerning Management of Zakat, Chapter 1.

From several terms that have been described above, it can be concluded about the definition of zakat, which is part of the obligatory property which must be issued to certain righteous which has been determined by the *Islamic Syari'ah* by paying attention about *nishab* and *haul*. Zakat in Islam is divided into two; zakat *fiṭrah* and zakat. Zakat *fiṭrah* is a personal zakat which obligatory issued by Muslim towards „*īd al-fīṭrī* during Ramadan. The amount of this zakat is equivalent to 2.5 kilograms of staple foods in the region concerned. While zakat *māl* is a wealth zakat that must be issued within a period of one year and meets *niṣāb* include the results of commerce, agriculture, mining, marine products, livestock, wealth findings, gold and silver, and the salary of work (profession). Each type has its own calculations.<sup>100</sup>

There are various forms of *zakat*—a *zakat* on money, on trade, on merchandise etc. A Muslim is responsible for paying *zakat al-maal* (or alms on money) equivalent to 2.5 percent of his net worth, if after meeting his needs, he reach *nisab* (possesses the equivalent of 85 grams of gold or 600 grams of silver) for a period of one year.<sup>101</sup>

There is a specific *nisab* for each type of *zakat* but generally Muslims calculate *zakat* as two and a half percent of their net income, which must be paid on money, merchandise, profit derived from harvest, livestock, stocks and shares,

bonds and securities.<sup>102</sup> In addition, twenty percent of all extracted resources are subject to *zakat* after deducting the cost of extraction. There is also a compulsory *zakat* al-fitr (alms on feast) in which every Muslim who can afford to plays a *zakat* equal to the amount it costs to feeds a person in need for one day.

#### b. Legal Basis

Zakat can be a potential source of funds that can utilize to improve the welfare of human life. Especially the poor, so they are able to live a decent life independently, without hanging his fate on mercy of other people.<sup>103</sup> It is reminiscent of how important zakat in our obligations as Muslims. In Qur'an and Hadith were mentioned that word of *zakat* along with the word of *Salah*. In the Qur'an word of *zakat* in the form *ma'rifat* is mentioned 30 (thirty times), including 27 (twenty seven times) mentioned in one verse within prayer, and once inside the same context with the prayer but not in one verse.<sup>104</sup>

And do not aim toward the defective therefrom; spending [from that] while you would not take it [yourself] except with closed eyes. And know that Allah is Free of need and Praiseworthy.”*<sup>105</sup>

2) QS. Al-Baqarah : 110

وَأَقِيمُوا الصَّلَاةَ وَآتُوا الزَّكَاةَ ۚ وَمَا تُقَدِّمُوا لِأَنفُسِكُمْ مِنْ خَيْرٍ يَجِدُوهُ عِنْدَ اللَّهِ ۚ إِنَّ اللَّهَ بِمَا تَعْمَلُونَ بَصِيرٌ

*“And establish prayer and give zakat, and whatever good you put forward for yourselves - you will find it with Allah. Indeed, Allah of what you do, is Seeing.”*<sup>106</sup>

As for both verses above are the basic verses is prescribed to fulfill zakat. In fact, as globally encouraging Muslims to put some of their wealth to public interest and explicitly encourage the *Muzakki* to fulfilling his zakat to be given to the *Mustahik* who has been defined by *syar'i*. Indeed every good thing that cultivated by people will get a reward by Allah.

b) Hadith

عن أبي عبد الرحمن عبد الله بن عمر بن الخطاب رضي الله عنهما قال: سمعت رسول الله صلى الله عليه وسلم يقول: (بني الإسلام على خمس: شهادة أن لا إله إلا الله وأن محمداً رسول الله، وإقام الصلاة، وإيتاء الزكاة، وحج البيت، وصوم رمضان)؛ رواه البخاري ومسلم.

*and that Muhammad is the Messenger of Allah, establishing the salah (prayer), paying the zakat (obligatory charity), making the hajj (pilgrimage) to the House, and fasting in Ramadhan. Narrated bukhari and muslim”.*<sup>107</sup>

The hadith above is the legal basis of obligatory *zakat*. These substances can be interpreted that *zakat* is one of the poles of religion, so if one of the building's pole is not sturdy, the building will not be able to stand perfectly. In other words, paying *zakat* is an obligation which is indistinguishable from the obligations of the Islamic *Ummah* into testifying (*shahadah*), prayer, fasting and *hajj* for the capable.

#### c. Requirements of Wealth be The Source of Zakat

In general, the *al-Qur'ān* states that *zakat* was taken from each of the wealth we have, as stated in Surah at-Taubah verse 103 and al-Baqarah verse 267. Yusuf Qardawi stated that the definition of wealth (*al-māl*) is everything that desirable by human to keep and have it.<sup>108</sup> There are some requirements of wealth that could be source of *zakat* as follows:

##### 1) Full-owned

The wealth is controlled and can be used by the owner, there is no rights of others in it and can be enjoyed usefulness.<sup>109</sup>

## 2) Developed

The wealth can be developed intentional or be potentially to developed.

Definition of “growing” according to recent language is the characteristic of wealth which provides some profit, revenue or income, as well as increased and produces the production.<sup>110</sup>

## 3) Achieve the *niṣāb*

Islam does not require any zakat on how much wealth is growing, although very small, but it gives a provision itself, namely certain amount in the science of *fiqh* called *niṣāb*.<sup>111</sup> However, there are some scholars who do not require *niṣāb* on the result that grows from the ground.<sup>112</sup>

## 4) Free from debt

Scholarly had notion that a debt is barrier of zakat compulsory, or at least reduce the obligatory need, in the case of stored wealth such as money and goods trade. While for the wealth that looked like livestock and agricultural products, some of *fiqh* scholars argue that the debt does not preclude the wealth to be obligatory of zakat.<sup>113</sup>

## 5) Passed one year

Ownership in the hands of the owner has passed its time twelve months of *Qamariyah*. This requirement is only for cattle, money and goods trade, which can be incorporated into the term “zakat of capital”. But

<sup>110</sup>Qardawi, *Hukum Zakat*, p. 138

crops, fruits, honey, metal, treasure, and other similar are not required one year, and all of it can be incorporated into the term “zakat of income”.<sup>114</sup>

d. Sources of Zakat

The types of wealth that become the source of zakat according to Yusuf Qardawi are as follows:

1) Zakat of livestock

The terms of livestock that must be issued in this zakat are as follows:<sup>115</sup>

- a) Reach the *niṣāb*. The minimum number of camel which can affect by zakat is five camels, whereas for goats is forty. For the cows, there is a difference opinion between five until thirty cows or fifty cows.
- b) It has been owned for one year
- c) It is grazed
- d) Not employed

The amount of zakat which issued from the minimum number is one livestock animal and applied the multiples.

2) Zakat of gold and silver

The terms of gold, silver and money that must be issued zakat are as follows:<sup>116</sup>

---

<sup>114</sup>Qardawi, *Hukum Zakat*, p. 161

<sup>115</sup>Qardawi, *Hukum Zakat*, p. 170

- a) Reach the *niṣāb* which for gold is 85 grams or 20 dinars, while the silver 595 grams or 200 dirhams. The *niṣāb* of money follows the *niṣāb* of gold.
- b) It has been owned for one year
- c) Free from debt
- d) More than staples

As for the amount of zakat issued is 2.5 %

### 3) Zakat of trading asset

The terms of trading asset that must be issued in this zakat is as follows:<sup>117</sup>

- a) The trade contains two elements: actions and intentions. The action is the act of buying and selling, while the intention is intent to make a profit.
- b) Reach *niṣāb* about 85 grams of gold
- c) It has been owned for one year
- d) Free from debt
- e) More than staples

The amount of issued is 2.5 %

### 4) Zakat of agriculture

Yusuf Qardawi follow the opinion of Abu Hanifa on the types of plants that must be issued the zakat is all types of plants that grow on

<sup>116</sup>Qardawi, *Hukum Zakat*, p. 270-272

<sup>117</sup>Qardawi, *Hukum Zakat*, p. 312-314

the ground.<sup>118</sup> While the *niṣāb* measure of this zakat are five loads of camels (*wasāq*) as saying of the Prophet Muhammad: “Less than five *wasāq* is not obligatory to zakat.”<sup>119</sup> The amount of zakat issued in plants is as Bukhari narrated from Ibn Umar from the Prophet: “The irrigated by rain or springs, or swamp, the zakat is tenth, and the irrigated by the help of animals, the zakat is twentieth”.<sup>120</sup> The zakat is issued every harvest.

#### 5) Zakat of honey and animal production

Honey shall be issued the zakat about tenth based on the *al-Ḥadīṣ* of Amr ibn Syu'aib; from his father from his grandfather from the Prophet: "Verily Rasūlullāh take zakat of honey for a tenth".<sup>121</sup> While its *niṣāb* equal to the price of five *wasāq* (653 kg).<sup>122</sup>

#### 6) Zakat of minerals and marine products

The discovery of hidden treasure kept by formerly people in the soil such as gold, silver, copper, and other valuable purse must be issued the zakat by 20%. There is no *niṣāb* and does not pass the *ḥaul*. For zakat of mining products, then it is looked from the business level. If it is obtained without difficulty then the zakat is 1/5 part.

<sup>122</sup>Qardawi, *Hukum Zakat*, p. 404

Conversely, if it is obtained hardly, then the zakat is 1/40 part. Its *niṣāb* like zakat of plant and does not apply the *ḥaul*.<sup>123</sup>

While the marine resources such as pearls, *marjan*, amber and others subject to zakat by 20% or 2.5% depending on the workload and the resulting number. Similarly, fishes are subjected to zakat by 20% if it reaches the *niṣāb* in 200 dirhams.<sup>124</sup>

7) Zakat of investment of factory, building, and so on

The amount of zakat which is imposed on income of buildings and factory is in analogy with agricultural income, by 10% or 5%.

8) Zakat of profession

Yusuf Qardawi opines that *niṣāb* of salary is based on *niṣāb* of money in the amount of 85 grams of gold because many people obtain the salary in the form of money.<sup>42</sup> The amount of zakat of income earned from work is like the income of employees and professional groups that they get from their work, so the amount of zakat is 1/40.<sup>43</sup>

9) Zakat of sticks and bonds

The trading company whose capital is in the form of goods for trade and the material does not fixed; it collected the zakat from its stocks, in accordance with the prevailing price in the market, added with the profits, while the amount of zakat is 2.5% after issuing the

value of the equipment included in the stocks.<sup>125</sup> Zakat is also subject to the bond because it is receivables which still possible to be returned and has been owned for one year.

e. Reciever (*Mustahiq*) of Zakat

In surah at-Taubah verse 60 mentioned explicitly who are entitled to receive zakat:

إِنَّمَا الصَّدَقَاتُ لِلْفُقَرَاءِ وَالْمَسْكِينِ وَالْعَامِلِينَ عَلَيْهَا وَالْمُؤَلَّفَةِ قُلُوبُهُمْ وَفِي الرِّقَابِ وَالْغَارِمِينَ وَفِي سَبِيلِ اللَّهِ وَابْنِ السَّبِيلِ فَرِيضَةً مِّنَ اللَّهِ وَاللَّهُ عَلِيمٌ حَكِيمٌ ﴿٦٠﴾

*“The poor-due (Zakat) is only for those who are poor and needy and those who collect it, and for those whose hearts are to be conciliated for Islam, and for the freeing of slaves, and for debtors, and for spending in the way of Allah and for the traveller. This has been ordained by Allah. And Allah is knowing, Wise.”*<sup>126</sup>

From the verse above, it can be known that people who are entitled to receive zakat (*mustahiq*) divided into eight categories (*aṣnāf*). Yusuf Qardawi defines *mustahiq* of zakat such as follows:

1) Indigent and Poor

Yusuf Qardawi combines these two categories into one chapter of discussion, but still divides it into two kinds:<sup>127</sup> (a) The poor who are able to work and earn a living, he can also fulfill himself as artisans,

<sup>125</sup>Qardawi, *Hukum Zakat*, p. 494

<sup>126</sup>QS. At-Taubah (9): 60

merchants, and farmers. (b) The poor who are unable to earn a living, like lame, blind, elderly, widows, children, and so on. They may be given zakat at sufficiently. For example, given a fixed salary per year, even either also given monthly if he is worried to doing wasteful or spend money in unimportant requirement.

2) *Āmil*

*Āmil* are those who carry out the activities of zakat affairs, such as: collector treasurer, guards, recorder, counters, and divider to the *mustahiq*. God provides a salary for them taken from zakat funds as a reward and not taken from others.<sup>128</sup>

3) Converts

Converts are those who expected their heart inclination or belief can grow about Islam or obstructed their evil intentions on Muslims or expectations of their protections and helping the Muslims from the enemy.<sup>129</sup>

4) *Riqāb*

*Riqāb* is the plural of *Raqabah*. This term in the *al-Qur"ān* means males slave and females slave. Zakat must be used to liberate the slave and eliminate all forms of slavery. Currently, the slavery does not

longer exist, so the zakat can be given to Muslim prisoners who are held by the infidel enemy.<sup>130</sup>

#### 5) *Gārimūn*

*Gārimūn* is the plural of *gārim* which means that the person who owes money. According to Imam Malik, Syafi'ī and Ahmad, the person who owes money is divided into two groups:

- a) For the benefit of himself, like to make a living, buying clothes, perform marriages, treat the sick, and so forth. Those who meet disasters and calamities also belong to this group.
- b) For the benefit of society, such as reconciling the dispute of two groups.

In addition, Yusuf Qardawi also added that lend by a good way (*qarḍ alhasan*) is part of the zakat target, he uses *qiyās* and the result is borrower same with debtor.<sup>131</sup>

#### 6) *Sabīlillāh*

Literally, *sabīlillāh* defined as conveying path at the pleasure of Allah, both creed and deed. The scholars of the four schools define *sabīlillāh* with Islamic jihad and war which implement by the name of God and its aim is change the human from worshiping against fellow

human beings to the God only; removing human from the narrowness life to the spaciousness and from the mayhem to the justice of Islam.<sup>132</sup>

Nowadays, kinds of jihad are not only limited to the strength of the army, but extends into other forms, such as:<sup>133</sup>

- a) Establish a representative Islamic activity center
- b) Establish a good newspaper printing office
- c) Spread some good Islamic books
- d) Hire strong, trustworthy and sincere people to conduct the activities above
- e) Help the preachers who call on the true Islamic teachings

#### 7) *Ibnu Sabīl*

According majority of scholars, *Ibnu sabīl* is an allusion to the traveler those who pass from one area to another.<sup>134</sup>

#### f. Law of Crediting Property's *Zakat*

Classical scholars have no one to discuss this problem; however, contemporary scholars allow crediting zakat property. Among these scholars are: *Muhammad Abu Zahrah, Husain Makhluḥ, Hasan Abd. Rahman, and Yusuf al-Qarḍawi*. They argue that the returning debt comes from the *zakat* property, so it

would be better if the *zakat* property is credited (loaned) in a free way to return to *Baitul Mall*, so that Muslims are not caught up in practice of interest (*riba*).<sup>135</sup>

Furthermore, Rafiq Yunus al-Maşri explained about credit law in terms of people who give credit as follows:<sup>136</sup>

- a) *Mandūb* because helping people in need.
- b) *Wajib* if the person applying for a loan is forced to borrow to cover the needs of life and his family and the person who gives credit is a rich person and able to help him.
- c) *Mubāh* if not to meet urgent needs.
- d) *Makrūh* if you lend to someone who is known to be someone else who needs the credit more, or knows that the money is for the neediest, such as excessive.
- e) *Haram*, if he knows the credit will be used for something that is forbidden such as drinking khamr, or gambling, or bribing.

### CHAPTER III

#### RESEARCH METHOD

The research method is an important factor in a research, the success of a research depends on the exact method used. According to Soerjono Soekanto research is a scientific activity related to the analysis, methodologically, systematically, and consistently. Those mean in accordance with a method or a particular way, systematic is based on a system. While consistent means based on the absence of contradictory things in a particular framework.<sup>137</sup>

---

<sup>137</sup>Soerjono Soekanto, *Pengantar Penelitian Hukum*, (Jakarta: Universitas Indonesia, 2010), p. 42.

Thus, in order to meet the scientific research criteria, the researcher prioritizes the method in accordance with the provisions of legal research methods, namely:

#### **A. Research Locus**

In this research, the researcher did the research located in two locations. First, el-Zawa pusat kajian zakat and wakaf UIN Maliki Malang, addressed in Gajayana Street No.50, Dinoyo, Lowokwaru District, Malang City, East Java 65144. Second, majlis agama Islam melaka (MAIM), addressed in Pusat Islam Melaka, Bukit Palah,, 75400 Melaka, Malaysia. In that location, the researcher did the research about the *Qordhul Hasan* Financing concerning into Comparative Study between two institutions el-Zawa Uin Malang Indonesia and Melaka Islamic Religion Council Malaysia.

The location of the research was chosen based on particular consideration, because of the problem which the researcher found in el-Zawa UIN Malang and Melaka Islamic Religion Council Malaysia when the researcher did pra research, so the researcher chose this location to be the location of the research.

#### **B. Type of The Research**

Before the research was done, the first step done was to determine the type of the research which functioned as main base of the research which had the effect on the overall implementation of the research.

In this research, the researcher used empiric legal research that is research whose object is about phenomenon which happened around the

researcher, such as non-literature social, institute or state phenomenon. Juridical empiric research observes social law phenomenon in society.<sup>138</sup> So in this research the object of the research is the implementation and financing of *Qardhul hasan* contract both two institution, and the objective of this research is to know what kind of concept which was done in the *Qordhul Hasan* Financing concerning into Comparative Study between two institutions el-Zawa Uin Malang Indonesia and Melaka Islamic Religion Council Malaysia.

### C. Research Approach

Research approach was chosen based on type of the research, problem of the research, and objectives of the research. And also explain urgency of research type used in examining and analyzing the research data.<sup>139</sup>

Approach according to Van Dyke is an approach consist of criteria of selection criteria employed in selecting the problems or questions to consider and in selecting the data to bring to bear; is consists of standards governing the inclusion of question and data.<sup>140</sup>

Approach of research in this research was juridical sociology approach, which was an approach that analyzes the problems that arise in the

midst of a society that needs an answer as soon as possible. In general, the issue revolves around the political level of government's policy in many ways, the socio-economic disparity with all its aspects, cultural issues and international relations, crime rates that at any time the frequency is increasing.<sup>141</sup> In which there was accordance between the practices of *Qordhul Hasan* Financing concerning into Comparative Study between two institutions el-Zawa Uin Malang Indonesia and Melaka Islamic Religion Council Malaysia.

#### D. Data Sources

Data is a real testimony or material that can be used as the basis of assessment (analysis or conclusions).<sup>142</sup> Data Source is source where is research data is found. Kind of data which used in juridical empiric research, divided into 2 types, that are: primary data and secondary data.<sup>143</sup>

Primary data is data which is gotten from first source.<sup>144</sup> Primary data is data which directly gotten from problem through interview to informant. While in this research, research interviewed parties who involved in *Qardhul Hasan* Financing between el-Zawa UIN Malang and Melaka Islamic Religion Council Malaysia, which were the director, secretary and officials.

## E. Data collecting Method

Data collection method is a systematic procedure to obtain the data needed. The data collection method used is interview and documentation. The interview talks about the certain intention.

In this research, data collecting method which used by the researcher are bellows:

### 1. Interview

Interview is situation of role between individual face to face, when interviewer or researcher ask questions which is planned to obtain relevant answer with research problem to respondent.<sup>146</sup>

Kind of interview which used is semi-structured or called general guide where the implementation is freer, because the objectives to find problem as more openly to party who is interviewed can easier to asked opinion and his ideas.<sup>147</sup>

In this research, researcher makes an interview to all parties who involved in institution invoice in el-Zawa Uin Malang Indonesia and Melaka Islamic Religion Council Malaysia. That is:

- a) Mohd Hairulamin bin Haji Mohd Sis as Official Treasurer of Melaka Islamic Religion Council (MAIM) Malaysia.

- c) Nurul Yaqien as Official Director of el-Zawa UIN Malang,
- d) Idrus A. Rahman as Treasurer of el-Zawa UIN Malang.

## 2. Documentary

Technique of exploring data use written literature. In the implementation of documentary method, researcher investigates objects written which in this case is note, transcript, book, newspaper, etc. From definition above, can be taken a definition that this method is data collect with quotes, writes on documents, notes which can give proof or information to a problem.

While documents which will be as data from this research are:

- a) Interview document in photo and written part
- b) Invoice document which be payment item.

## F. Data Analysis Method

Data analysis method is a technique to process the data obtained and to make the research be readable by reader. The steps used to process data are editing, classifying, verifying, analyzing, concluding and comparing.<sup>148</sup> From the formulation above, we can draw the outline that the data analysis intends to organize the data.

After done the analysis to understand the relationship between aspects of one another that the problem of research so as to provide a complete

---

<sup>148</sup>Tim Penyusun, *Pedoman Penulisan Karya Ilmiah Fakultas Syariah*, (Malang: UIN Press, 2012), p. 2.

picture. Furthermore, then researcher explains specifically the steps as follows:

a. Editing

The process of data checking is done in examining data which has been collated by researcher so as to reduce errors and improve the systematic writing, either in the form of primary data or secondary data which related on research of *Qardhul Hasan* financing comparative study between el-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia.

b. Classifying

After the editing process is complete, then the processing subsequent data is classification or grouping data. Classification is the process of selecting from the data collected by researcher into subchapters which will research by researcher, so as to create compatibility between the themes of the systematic writing.

c. Verifying

Verification is almost the same as the qualification, but in the selection process of verification is used to select whose data accordance with the theme of research or not.

d. Analyzing

After the data has been collected and compiled as systematic writing, then the researcher using the comparative analysis that explains the relation of the two concepts of *Qardhul Hasan* financing

comparative study between el-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia. The next process was to analyze the data so that it can solve the problem mentioned in problem of research.

This research will define expressly the similarities and differences so that the nature of the object understood more broadly. This is included in the descriptive-comparative analysis section which is expected to be a general overview of development of *Qardhul Hasan* financing in two institutions between el-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia. As well as be able to compare from each the resources used and knowing the similarities and differences of both concepts.

e. Concluding

After all data have been presented and analyzed based on the perspective adopted, the next step is to conclude from all Data which have been presented into a concise but meaningful conclusions.<sup>149</sup>

f. Comparative

Comparative research is comparative research. This research was conducted to compare the similarities and differences of two or more facts and the properties of the object being examined based on a particular frame of mind. In this study, the variables are still independent but to sample more than one or in a different time.<sup>150</sup>

---

<sup>149</sup>Tim Penyusun, *Pedoman*, p. 29.

<sup>150</sup> Nazir, *Metode Penelitian*, (Jakarta: Ghalia Indonesia, 2005) p. 26

According to Nazir comparative research is a kind of descriptive research that wants to find answers fundamentally about causation, by analyzing the factors that cause or the emergence of a particular phenomenon.<sup>151</sup> Comparative research is "post facto", meaning that data collected after the event in question occurs. Expost stacking is a systematic empirical study where researchers do not directly control the independent variables because the manifestation of the variable has occurred or because the variable basically cannot be manipulated. Researchers did not perform treatments in comparing and finding causal relationships of variables. Researchers only look for one or more of the consequences and test it by tracing the past to look for causes, possible relationships, and their meanings. This study tends to use quantitative data.

#### **G. Data Validity Technique**

Validity Technique according to Bogdan is data analysis is the process of systematically searching and arranging the interview transcripts, field notes, and other material that you accumulate to increase your own understanding of them and to enable you to present what you have discovered to others.<sup>152</sup>

---

<sup>151</sup>Nazir, *Metode Penelitian*, p. 27

<sup>152</sup>Sugiyono, *Metode penelitian kuantitatif kualitatif dan R&D*, p 244.

In this research, data validity technique is done with analysis data as follow. First, reviewing all data which is obtain from several sources, such as interview result, private document, original document and internet. Those data is red, selected, studied and reviewed. Second, stages make a main summary, the process, and the questions which are effective, so constantly within the topic. Third, arrange data into units which is categorized on next stage. Finally, last stage is conduct checks against the validity of data, and then next with interpretation stage and the result be able to proceed with analysis method.

children can go to school so that someday can reach success in his life both world and hereafter. But the reality is that not a few parents sometimes find it difficult to fund their children's school because of economic limitations.<sup>173</sup> To ease the burden of education costs for parents of children, el-Zawa has provided *zakat / infaq* funds which are realized in the form of a strong roots scholarship program. Until 2016, there were 62 strong roots scholarship recipients with a total of Rp. 57,800,000 (fifty seven million eight hundred thousand rupiah).<sup>174</sup>

#### d) Mentoring of Targeted Schools

The mentoring school assistance program is follow-up to the MoU between El-Zawa and educational institutions. The assistance given by ElZawa is through sending UIN Maulana Malik Ibrahim students to foster various extracurricular activities. In 2016, there were 10 volunteer students who had been sent to the target schools to foster extracurricular activities with various skills backgrounds. Nominal funds channeled through mentoring activities amounting to Rp. 8,450,000 (eight million four queens fifty thousand rupiah).

#### 4) Sponsorship Activities

##### a) Fund Rising Temu Wali

To optimize the fund raising function, ElZawa until now still runs a fund rising program to meet trustees. To run the program, El-Zawa always empowers cadre students in their interests, ranging from the distribution of El-Zawa brochures to the calculation and results of fund rising. In 2016, the zakat, infaq and dakwah funds that were collected from the fund rising were Rp. 25.785,000 (twenty five million seven hundred eighty five thousand rupiah).

##### b) Training of Cadres

Islam is a religion of advice to give guidance truth. Providing advice is part of the mission that our awareness needs to continue to develop. The fact that not all Muslims have the awareness of preaching due to limited capacity. Therefore to foster the ability to preach, El-Zawa took the initiative to hold training of da'wah cadre with Ahmad Muzakki resource person, M.Ag and Dr. H. Dahlan Tamrin, M.Ag.

##### c) Milad El-Zawa

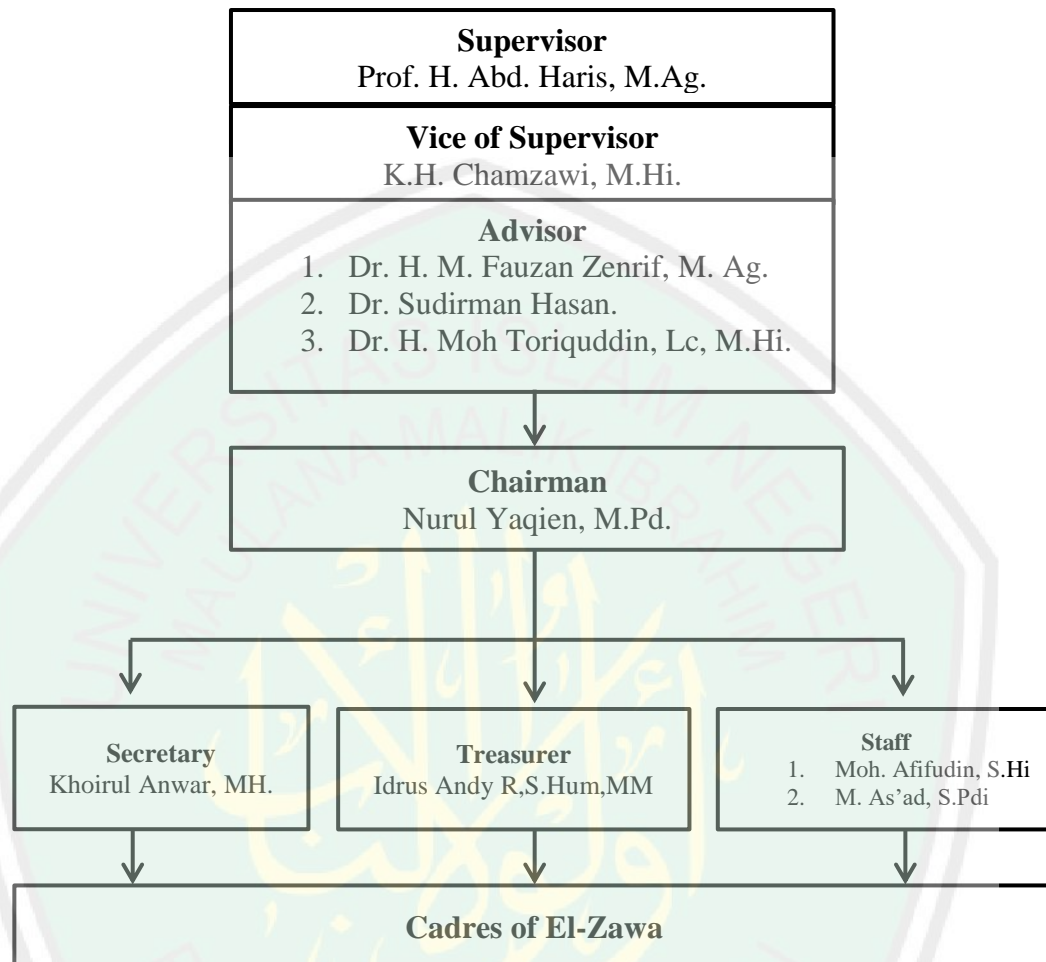

On 22 of November 2016 el-Zawa had entering the age of 10 years. To realize gratitude for his role so far, El-Zawa held a simple milad by inviting the people of dhu 'afa diacara

tausiyah accompanied by the provision of compensation. From the invitations distributed, there were at least 83 informal workers and from among the fathers or elderly mothers, they could attend the event.

d) Sponsorship Activities

As a charity institution, El-Zawa was never quiet from proposals for student and social activities community in general. To respond to needs that, El-Zawa has been facilitating through sponsorship activities even with limited quota. In 2016, funds channeled for sponsorship activities outside the posdaya proposal are Rp. 22,100,000 (twenty two million one hundred thousand rupiah).

## **B. Comparative Study of *Qardhul Hasan* financing between El-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia**

### **1. Implementation of *Qardhul Hasan* Financing in El-Zawa UIN**

#### **Maulana Malik Ibrahim Malang Indonesia**

Along with the fast world's development in the field of economy, not infrequently makes underprivileged people can not fill their needs. The important role for El-Zawa is helping people so that there is a synergy between the *amil zakat institution* (LAZ) and the societies. The function of the *amil zakat institution* is collecting *zakat's* fund and empower *zakat's* fund. In this discussion, the researcher will present the data which obtained from interview's result conducted at the *Zakat and Waqf Study Center "El-Zawa"*. Researcher begins the discussion deeply about the financing process of *Qardhul Hasan* wheareby this product includes financing products that are often needed by the society. To find out the procedure of *Qardhul Hasan* financing as a loan at El-Zawa UIN Malang, in this case the researcher conducted an interview with Mr. Nurul Yaqien as the chairman of El-Zawa as follows:

*"The beginning of validity's product of Qarhul Hasan in El-Zawa was based on ijtihad of the el-Zawa founders, during the leadership period of Mr. Fauzan Zenrif and Mr. Sudirman Hasan. In 2008, el-zawa launched Qarhul Hasan as an interest-free soft loan with an easy submission mechanism. The first Qardhul Hasan issued by el-zawa was the Qardhul Hasan employee who at that time saw the immediate situation around Elzawa. The Qardhul Hasan program launched by eL-Zawa is a form of zakat fund management, namely the utilization of zakat regulated in Law No. 23 year 2011 concerning the Management of Zakat, article 1 stated that zakat management is an activity of planning, implementing, and coordinating in the collection, distribution and utilization of zakat. El-zawa is a zakat institution in the campus, at that time we see the*

*condition of employees who are not civil servants and have a lot of household needs and for now also applies to students, outsiders, mustahiq and several types such as Qardhul Hasan UMKM, Qardhul Hasan lecturer education”.*<sup>188</sup>

From the interview descriptions above, the data also in accordance with the establishment of eL-Zawa which begins with seminar and expo of Southeast Asia Zakat by the Faculty of Sharia UIN Maliki Malang in association with Institution Manajemen of Zakat (IMZ) Jakarta and University Technology Mara (UiTM) Malaysia on 22 of November 2006 in UIN Malang. In this event also, the Minister Religion of the Republic Indonesia, Muhammad M. Basyuni along with the Rector of UIN Malang signed the establishment of the Center for *Zakat* and *Waqf* Studies. After two months from this event, on 27 of January 2007 the rector of UIN Maliki Malang issued a Rector's Decree Number: Un.3 / Kp.07.6 / 104/2007 dated January 27, 2007 concerning the Appointment of Management of the Center study of *Zakat* and *Waqf* in State Islamic University of Maulana Malik Ibrahim Malang, appointed M. Fauzan Zenrif as chairman and Sudirman Hasan as secretary.<sup>189</sup> The *Qardhul Hasan* program launched by eL-Zawa is a form of zakat fund management, namely the utilization of zakat regulated in Law No. 23 year 2011 concerning the Management of Zakat, article 1 stated that zakat management is an activity of planning, implementing, and

coordinating in the collection, distribution and utilization of zakat.<sup>190</sup>

With the program developed by El-zawa in the loan above Qardhul Hasan they can utilize the funds of this program with a minimum loan of Rp. 1,000,000 to Rp. 5,000,000 with an instalment of 20 months. Thus the funds channeled through El-Zawa are exact for people in need.

**Table 4.1**  
**El-zawa Loan Limit of *Qardhul Hasan***

<i>Qardhul Hasan</i>	Rp. 1.000.000	Rp. 5.000.000	20 Months

*Source: Pusat Kajian Zakat dan Wakaf El-Zawa*

As for the *Qardhul Hasan* product development model offered at El-zawa institution, it is very fariative, the researcher asked directly about the model of *Qardhul Hasan's* financing in El-zawa to Mr. Idrus Andy as treasurer, as follows:

*“For the type of Qardhul Hasan itself in el-zawa there are two namely Qardhul Hasan Productive and Consumptive. Inside the campus is like qardul hasan employees, then the external are qardhul hasan UMKM, external to UMKM mudharabah”.*<sup>191</sup>

For the explanation above that the development which carried out in State Islamic University of Maulana Malik Ibrahim Malang is developing within productive and consumptive, productive development such as *Qardhul Hasan* employee and *mudharaba*. While the external

<sup>190</sup> Act number 23 year of 2011, chapter 1 concerning management of zakat.

<sup>191</sup> Idrus Andy, *Interview*, (Malang, 6 March 2018)

development is the development carried out outside State Islamic University of Maulana Malik Ibrahim Malang, with the same development as internal that is productive and consumptive, for example productive development namely *Qardhul Hasan* UMKM and UMKM *mudharabah*.

**Table 4.2**  
**El-zawa Type of *Qardhul Hasan* Financing**

No.	Type of <i>Qardhul Hasan</i>	
1.	<i>Qardhul Hasan</i> Consumptive	1. <i>Qardhul Hasan</i> Employee 2. <i>Qardhul Hasan</i> Motorcycle
2.	<i>Qardhul Hasan</i> Productive	1. <i>Qardhul Hasan</i> Small Micro Medium Enterprise (UMKM) 2. <i>Mudharabah</i> Small Micro Medium Enterprise (UMKM)

Source: Pusat Kajian Zakat dan Wakaf El-Zawa

Researcher continues to explore data regarding the source of funds from loans through the *Qardhul Hasan* financing in el-zawa as follows:

*“We take the Qardhul Hasan funds from Zakat funds, we are very supported by the rector sides, because indeed with the circular letter from the chancellor/rector for the deduction of salaries for employees both lecturers and non-lecturers at State Islamic University of Maulana Malik Ibrahim we can gain Rp. 45,000,000 (forty five million rupiah) every month. We also take it from three sources, namely the receipting of the infaq / shadaqah funds, the infaq / shadaqah fund, and the infaq / shadaqah fund to meet the parents. For year 2014 our Zakat funds from Rp.38,000,000 to Rp.42,000,000 per month, so every month we have a surplus of 4 million rupiah. But if it is calculated, we publish the first annual report from 2012 to 2016 on a graphical basis. At that time, we got almost 2 billion in income, because we could get the funds to meet the parents only Rp. 100,000,000. We also rotate funds from the acquisition of repayment from Qardhul Hasan financing.”<sup>192</sup>*

<sup>192</sup>Idrus Andy, *Interview*, (Malang, 6 March 2018)

From the explanation above, *Qardhul Hasan's* funding sources in Elzawa were taken from Zakat funds, Infaq/Sadaqah and the screening of qardhul hasan funds themselves. The most funds taken are in the form of zakat taken from salary deductions from all employees working on campus and lecturers who are on campus, the deductions described in the circular letter in the form of zakat, so that they can be collected every month up to Rp. 45,000,000 (forty five million rupiah). The el-zawa annual report chart is also categorized as a surplus from 2012 to 2016.

**Table 4.3**  
**El-zawa Fund Sources of *Qardhul Hasan***

Financing	Fund Sources	Types	Nominal
<i>Qardhul Hasan</i>	Zakat	UIN Maliki Malang	Rp. 525.619.904
		Student's Guardian Meeting	Rp. 4.900.000

		Individual	Rp. 3.739.000
		Guardian Meeting	Rp. 19. 585.000

Source: Annual Report El-Zawa Tahun 2016

The loan through the *Qardhul Hasan* contract is given to those in needs; it must fulfill the criteria which were determined by el-Zawa. In this case the researcher asked to el-zawa's treasurer directly as follows:

*"The loan through the Qardhul Hasan contract, we give to several categories, one of them: Fakir-poor/Dhuafa, Riqab, Gharimin, Muallaf, Sabilillah and Ibnu sabil. For Qardhul Hasan consumptive, we give it to: Employees, lecturers and students. For the Qardhul Hasan productive, we give to the people who have fulfilled our terms and conditions. Usually the Qardhul Hasan Fund is most needed by the society in certain*

month, for June-July it is used for the education costs of their children and for January-March is used to repair / pay the rent for their homes. For the most percentage, it is used for home improvement in January-March".<sup>193</sup>

*Qardhul Hasan's* funds which are mostly consumed by customers are in the specified months, among others: January-March and June-July. From January to March it is used for the payment of house rent and home repairs such as rooftop repairs, waterways and other material purchases, because that month coincides with the rainy season.

**Chart 4.4**  
**El-zawa Customer Loan Chart**

Source: Annual Report El-Zawa Tahun 2016

From June to July it is used to pay for the education costs of their children or the purchase of books, stationery and other necessities. The most percentage in *Qardhul Hasan's* loan is from January to March for the needs of home improvements and house rent payments and others.

<sup>193</sup>Idrus Andy, *Interview*, (Malang, 6 March 2018)

In the development of the *Qardhul Hasan* program, the el-Zawa institution certainly has a requirement for someone who wants to get a loan through the *Qardhul Hasan* contract, the researcher asks Mr. Idrus Andy as follows:

*“For the requirements, it must be included in the categories that mentioned in the above points and must fill in the registration form for Qardhul Hasan. In 2018 we add the terms of the inadequate statement (SKTM), this applies to Qardhul Hasan Employees/Motorcycle, Qardhul Hasan UMKM and Assistances/Mudharabah UMKM”.*<sup>194</sup>

The requirements for someone in a loan through the *Qardhul Hasan* contract must be included in the categories that were mentioned above among others: employees, lectures, intra-campus students of State Islamic University of Maulana Malik Ibrahim Malang, The poor, *Riqab*, *Gharim*, *Muallaf*, *sabilillah* and *Ibn Sabil*. The other conditions must fill in the registration form for the *Qardhul Hasan*'s application and the certificate of inadequacy (SKTM).

**Table 4.5**  
**El-zawa *Qardhul Hasan* Requirements**

Financing	Requirements
<i>Qardhul Hasan</i>	1. Fill in Form
	2. Enclose a Not Capable Certificate (SKTM)
	3. Enclose a Copy of Family Card (KK) and Indonesian ID Card (KTP) and Rp. 6000 Stamps
	4. Last Salary information

Source: Pusat Kajian Zakat dan Wakaf El-Zawa

If in case someone happens to be unable to fulfill the requirements for repayment of *Qardhul Hasan* loans at the central institution of study zakat and Waqf el-Zawa, the following is a statement from Mr. Idrus Andy:

*“If there are offenses or a fraudulent customer or unpayness at the certain deadline, eL-Zawa has its own method, namely: first, we give a reprimand to them in maximally twice. Second, we report to the center official (the finance department) to deduct the salary from the customer to pay the installment, if the customer has paid off, the customer is subjected to a fine of 10% of the principal loan”.*<sup>195</sup>

According to eL-Zawa, if the customer fails to repay the loan principal because his business is bankrupt it is not due to the negligence of the customer, so the loan principal is deleted. Whereas for the loan Transaction Procedure through the *Qardhul Hasan* contract. El-Zawa has clearly regulated, in line which was revealed during the interview with Mr. Idrus Andy as follows:

*“The transaction procedure flow is like. First, customers must fill out an application form. Second, put it in the Red Map. Third, propose to chairman due to come out of decision. Fourth, when the loan funds have been issued we will provide a statement”.*<sup>196</sup>

<sup>195</sup>Idrus Andy, *Interview*, (Malang, 6 March 2018)

<sup>196</sup>Idrus Andy, *Interview*, (Malang, 6 March 2018)

Thus, describes that the Loan funds through the *Qardhul Hasan* is easy. Customers who desire to apply a loan should fill in *Qardhul Hasan's* form, among others: attaching 1 copy of ID card, 1 last salary and guarantee's proof of motorbike BPKB. Customers are asked to enter the file into red map, after that the customer will get certificates that have been determined.

## **2. Implementation of *Qardhul Hasan* Financing in Melaka Islamic Religion Council (MAIM) Malaysia**

As an institution which was becoming the central of all Islamic agencies and institutions at the state of Melaka, but also as an adviser on Islamic religious affairs to the religious leader, Sri Paduka Baginda Yang Di Pertuan Agong and the chief minister as the head of the state administrator. MAIM (through Baitulmal) is managing the financial/property of *zakat*, *wakaf*, *grants*, *shadaqah* and all the commissions given by the society in advancing the religion of Islam. The researcher started a more detailed discussion of *Qardhul Hasan's* financing process. To find out the validity of *Qardhul Hasan's* contract at the Melaka Islamic Religion Council (MAIM), in this case the researcher conducted an interview with Mr. Hairulamin as the Official Treasurer as follows:

*“Yes, in MAIM there is a loan offering activity in the form of *Qardhul Hasan* contract through a loan of *asnaf al-Gharimin*. For customers who want to borrow will pay back to MAIM with the same value as the*

*amount it lends and not more than that, in accordance with the agreement without a fee or processing fee”.*<sup>197</sup>

The researchers concluded that not all products offered by MAIM using *Qardhul Hasan* contract, *Qardhul Hasan's* product at the Melaka Islamic Religious Council (MAIM) institution was granted only through *Asnaf Al-Gharimin's* loan.

Researchers continued to probe the data regarding fund source through the *Qardhul hasan* contract at the Melaka Islamic Religious Council (MAIM) institution as follows:

*“As for the source of funds we gotten from result of Zakat al-fitr (zakah of breaking the fast) and zakat al-mal (zakah of wealth) based on zakat quotes under the government of Melaka state and disbursed under the loan of asnaf al-Gharimin in accordance with the views are given by Dr. Yusuf al-Qardhawi”.*<sup>198</sup>

From the explanation above, the researcher concluded that *Qardhul Hasan's* funding source at the Melaka Islamic Religion Council (MAIM) institution was obtained through quotations result of *Zakat al-fitr* (zakah of breaking the fast) and *zakat al-mal* (zakah of wealth) based on zakat quotes under the government of Melaka state which was disbursed through the *Asnaf Gharimin* program with the views are given by Yusuf Qardhawi.

According to Yusuf Qardhawi, if the debt can be paid from the proceeds of *zakat*, then of course it would be more important to borrow

from *zakat* in a good way, which is clean from the element of *riba*, then it will be returned to the state treasury.<sup>199</sup> Yusuf Qardawi also added that lend by a good way (*qard alhasan*) is part of the zakat target, he uses *qiyās* and the result is borrower same with debtor.<sup>200</sup>

The loan through *Qardhul Hasan's* contract is given to parties who needed, it have to fulfill the type and criteria setted by the MAIM. In this

case the researcher asked immediately to MAIM Treasurer Mr Mohd Hairulamin as follows:

*“The loan is given to the two types of Gharimin; as follows:*

- 1) People who have debts for the benefit of himself*
- 2) People who have debts to the benefit of society*

*Applicants must fulfill the requirements of Asnaf Gharimin as follows:*

- 1) People who owe money for basic needs for themselves and their dependents and meet the goals of legislation for the purpose of debt shall not sin to God unless he repented.*
- 2) Those who owe money for benefit themselves is like giving a living buying clothes, perform marriages, heal the sick, build houses, buy household furniture, marrying children or replace that damaged property of another person as a mistake, forget or similar. Debt levels must not be excessive.*
- 3) The purpose owe is to meet the basic needs levels and not for luxury destination for extravagance in the basic preparation is forbidden for any Muslim.*
- 4) People who owe due to natural disasters.*
- 5) People debt to pay for treatment / medication;*
- 6) People owe an inevitable to finance the cost of production to meet the basic human needs.*
- 7) The indebtedness requires solution immediately and can not be postponed.*

<sup>201</sup>Mohd Hairulamin, *Interview*, (Malang, 4 April 2018)

From the explanation above, it was concluded that *Asnaf Gharimin* in Melaka Islamic Religion Council (MAIM) was broadly divided into two categories. First, the person owed due to the benefitness of himself. Second, the person owed due to social benefits. Customers must fill in the application form through *Asnaf Gharimin* financing and complete the documents or requirements, as well as a table of assistance application forms for customers as follows:

The researcher continued the interview regarding the requirements for a customer who wanted to get a loan through the *Qardhul Hasan* contract, the researcher asked to Mr. Mohd Hairulamin as follows:

*“For requirements for prospective customers who want to borrow through Asnaf Gharimin as follows:*

- 1) *The maximum loan amount is RM. 5.000.00;*

- 2) *The payment method and repayment installment as follows:*
  - a) *Loan RM1,000.00, installment a day RM1.00: a month RM30.00;*
  - b) *Loan RM2,000.00, installment a day RM2.00: a month RM60.00;*

In case someone happens to be unable to fulfill the requirements for repayment of *Qardhul Hasan's* loan at the Melaka Islamic Religion Council (MAIM), the following is a statement from Mr. Mohd Hairulamin as follows:

---

<sup>202</sup>Mohd Hairulamin, *Interview*, (Malang, 4 April 2018)

*“First, the written notice will be submitted to the borrower "notice of breach" stating the relevant breach and require remedying the breach within fourteen (14) days from the date the borrower receives notice or within a longer period as may be agreed by MAIM. Secondly, MAIM reserves the right to make the whole loan from the borrower through a legal process in which all costs and expenses in respect of the claim shall be fully borne by the borrower”.*<sup>203</sup>

From the exposure of interviews, the researcher went on to ask about the loan transaction procedure through *Qardhul Hasan's* contract, the institution of the Melaka Islamic Religion Council (MAIM) has clearly regulated. Similar to what was disclosed when interviewing to Mr. Hairulamin as follows:

*“Applicants must through a loan application form. For a checked application, the check will be submitted to the borrower and the borrower must sign the agreement and stamp the agreement”.*

For customers who apply for a loan to MAIM through an *Asnaf Gharimin* loan, they should fill out the application form that has been provided by the institution, after completion the customers need to sign an agreement with a stamp. So that if something happens unexpectedly, then the agreement can be legally valid.

### C. Similarities and Differences of *Qardhul Hasan* financing contract between El-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia

#### 1. The Similarities of *Qardhul Hasan* Financing

*Qard al-Hasan* financing is a financing agreement between an Islamic financial institution and a customer deemed eligible to receive priority for a potential entrepreneur. However, there are no capital than entrepreneur's ability and other individuals who are in urgency situation. The borrower is merely required to return the loan principal at maturity and the bank merely gives a true administration fee for the process.<sup>204</sup>

In the *Qardhul Hasan* financing which is managed by both *Zakat* receiving institution is aimed at educating and utilizing people who are less to explore the potential in living their daily lives. Thus the existence of El-zawa and MAIM has an important role in carrying out the mission to lead a more prosperous socio-economic community of Muslims. *Qardhul Hasan's* financing programs in these two institutions have similarities in the implementation of its contract. Aspects in the implementation of *Qardhul Hasan* in el-Zawa UIN Maliki Malang and Melaka Islamic Religion Council (MAIM) depend on the problems that occur in the field. The similiarity in *Qardhul hasan* financing is the

---

<sup>204</sup>Muhammad, *Manajemen Dana*, p. 124

sources of funds in the two institutions, this clearly seen in the table below:

**Table 4.10**  
**The Similiarities of *Qardhul Hasan* Financing**

Financing	The Similiarities	
	El-zawa	MAIM
Source Funds	The source of <i>Qardhul Hasan's</i> funds in el zawa was taken from Zakat funds, namely salary deductions from all employees who worked at UIN Maliki Malang and in the Guardian's Student Meeting.	The source of <i>Qardhul Hasan's</i> funds in Melaka Islamic Religion Council (MAIM) was obtained from the results of <i>Zakat al-fitr</i> (zakah of breaking the fast) and <i>zakat al-mal</i> (zakah of wealth) based on zakat quotes under the government of Melaka state and spent under <i>Asnaf al-Gharimin</i> loan.

Based on the table, the researcher concluded that the source of *Qardhul Hasan's* fund in Elzawa was taken from Zakat funds and the fund's round. The most funds are taken in the form of *zakat* which taken by salary deductions from all of employees who working in university and lecturers, the deductions described in the circular letter is in the form of *zakat*. Meanwhile, *Qardhul Hasan's* funds at the Melaka Islamic Religion Council (MAIM) was obtained through quotations from *zakat* which is spent through the *Asnaf Gharimin* loan with views by Yusuf Qardhawi.

## 2. The Differences of *Qardhul Hasan* Financing

The implementation of the *Qardhul Hasan* financing which is managed by the two institutions of *zakat* namely el-Zawa UIN Maliki Malang and Melaka Islamic Religion Council (MAIM) are very different, this clearly seen in the table below:

**Table 4.11**  
**The Differences of *Qardhul Hasan* Financing**

Financing	The Differences	
	El-zawa	MAIM
Customers	The loan of <i>Qardhul Hasan</i> was given to several groups including: <i>Fakir, Poor, Riqab, Gharim, Muallf, Sabilillah, Ibn Sabil</i> , Employees / Lecturers / student of UIN Maliki Malang and Society who categorized.	Loans are given only to <i>Asnaf Gharimin</i> which has fulfilled the requirements determined by MAIM.
Loan Limits	Provide a minimum loan of Rp. 1,000,000 and a maximum of Rp.5,000,000 in installments for 20 months.	Give a minimum loan RM. 1,000 and a maximum RM. 5,000 in installments for 2 years 9 months
Type of <i>Qardhul Hasan</i> Financing	There are two types of <i>Qardhul Hasan</i> Financing, namely: 1. <i>Qardhul Hasan Consumtive</i> 2. <i>Qardhul Hasan Productive</i> .	<i>Qardhul Hasan's</i> financing is only through <i>Asnaf Gharimin</i> .

Based on the table, the researcher concluded that El-Zawa gave the requirements for customers to be able to borrow *Qardhul hasan's* funds to 8 *ashnaf* and all university partners of UIN Malanng. Meanwhile, the

Melaka Islamic Religion Council (MAIM) gave just *Ashnaf Gharimin*. *Gharimin* in the MAIM institution is broadly divided into two categories: First, the person owed due to benefitness of himself. Second, the person owed due to social benefits.

Whereas in customer's term of requirements and sanctions, people who infringed the provisions of *Qardhul Hasan's* financing, el-Zawa UIN Maliki Malang and Melaka Islamic Religion Council (MAIM) have own differences, because the two institutions have their own reasons based on the law applied in institutions. The law applied by el-zawa is Law No. 23 Year 2011 Concerning the Management of *Zakat*. In Article 1 it is stated that *zakat* management is an activity of planning, implementing, and coordinating in the collection, distribution and utilization of *zakat*. While the MAIM used the Enactment of the Establishment of: Administration of the Religion of Islam (State of Malacca) 2002 Section 4 subsection 1.<sup>205</sup>

**D. *Fiqh* Analysis Against the Implementation of *Qardhul Hasan* Financing between El-Zawa UIN Malang Indonesia and Melaka Islamic Religion Council Malaysia.**

In this sub-chapter, the author tries to analyze classical *fiqhiyah* against the implementation of *Qardhul Hasan* financing in the el-Zawa UIN Malang

---

<sup>205</sup>Enactment of the Establishment of: Administration of the Religion of Islam (State of Malacca) year 2002.

Indonesia and Melaka Islamic Religion Council Malaysia (MAIM). The analysis is directed to find an answer from questions of problem formulation in chapter I.

In classical fiqh there is no discussion about *Qardhul Hasan* contract, but there is a contract which according to the author is the main of the *Qardhul Hasan* contract, namely *al-qardh* contract. The discussion of *Qardhul Hasan* in Islamic jurisprudence cannot be separated from the theory of *al-qardh*.<sup>206</sup> Classical and contemporary scholars have agreed that *al-qardh* may be done. Because basically humans are social beings, so it has become a human nature that cannot live without helping each others.<sup>207</sup>

The practice of *Qardhul Hasan's* financing in legal sharia financial institutions is allowed (*Jaiz*) if they have fulfilled the requirements and conditions that have been determined. In the Holy Qur'an *Qardhul Hasan* is mentioned in following verses, i.e., Chapter al-Baqarah: verse 245, Chapter al-Maidah: verse 12, Chapter Al-Hadid: verse 11 and 18, Chapter al-Taghabun: verse 17 and Chapter al-Muzammil: verse 20. In those studies, they refer to the verses and also al-hadith as to define, and validate the approval of qard. The theoretical foundations from these sources, later, were expanded by many scholars such as Tabari, Ibnu Kathir, al-Suyuti, al-Qurtubi, al-Baidhowi and al-Jalalyn.<sup>208</sup>

<sup>208</sup>Az-Zahabi, Muhammad Hussain, *Al-tafsir Wal-mufasssirun* (Qaherah: Maktabah Wahbah, 2000) Vol.1, p.147.

The legal basis of *Qardhul Hasan* is found in the Surah Al-Hadid verse 11 and Al-Baqarah 245 as follows:

مَنْ ذَا الَّذِي يُقْرِضُ اللَّهَ قَرْضًا حَسَنًا فَيُضَاعِفَهُ لَهُ وَلَهُ أَجْرٌ كَرِيمٌ ﴿١١﴾

“Who is it that would loan Allah a goodly loan so He will multiply it for him and he will have a noble reward” (Al-Hadid: 11)<sup>209</sup>

مَنْ ذَا الَّذِي يُقْرِضُ اللَّهَ قَرْضًا حَسَنًا فَيُضَاعِفَهُ لَهُ أَضْعَافًا كَثِيرَةً وَاللَّهُ يَقْبِضُ وَيَبْسُطُ وَإِلَيْهِ تُرْجَعُونَ ﴿٢٤٥﴾

“Who is he that will loan to Allah a beautiful loan, which Allah will double unto his credit and multiply many times It is Allah that giveth (you) Want or plenty, and to Him shall be your return”. (Al-Baqarah: 245)<sup>210</sup>

The verse above asserts that we are encouraged to do charity on the path of Allah because it is included relationship with Allah, along lends wealth to others is remaining social living. In the practice of implementing *Qardhul Hasan* in the El-zawa UIN Malang and Melaka Islamic Religion Council (MAIM) have fulfilled the requirements of *Fiqh Muammalah Al-qardh* in terms of financing capital, financing targets and financing requirements. *Muammalah Al-qardh* or interest-free loans according to the Islamic law is allowed, if it has been fulfilled the terms and conditions, including:

a. *Aqid* is *Muqrid* and *Muqtarid*

El-Zawa and MAIM institutions have fulfilled the qualifications of proficiency in conducting this *muammalah* because in its terms the

<sup>209</sup>QS. al-Hadid (57): 11

<sup>210</sup>QS. al-Baqarah (2): 245

two institutions require customers to have an ID card (Identity Card) and other requirements..

b. *Ma'qud alaih* is Money and Goods

The money and goods used in this institution are clear.

c. *Shiqhat* is *Ijab* and *Qabul*

The requirements in both institutions require customers who borrow to be present and carry out the required documents.<sup>211</sup>

The fund source is obtained from the *zakat* fund which is the main source of *Qardhul Hasan*. According to Yusuf Qardhawi if the debt can be paid from the proceeds of zakat, then it would be more important to borrow from zakat with a good way which is clean from the element of interest, then it will be returned to the nation's treasury.<sup>212</sup> Yusuf Qardawi also added that lend by a good way (*qard alhasan*) is part of the zakat object, he uses *qiyās* and the result is borrower same with debtor.<sup>213</sup>

The property of zakat is the right of mustahiq, the position of 'āmil is like the parents of their children to manage the assets of zakat or in other words the position of 'āmil is the representative (facilitator) of muzakki to distribute the assets of zakat to mustahiq. In managing the assets of zakat amil have freedom in accordance with their initiatives and innovations such as being produced so that the benefits of the zakat will be more felt than just

consumptive. By distributing this charity in a consumptive manner the hope is that they will be more empowered with zakat assets so that they do not always expect in the following years, they could infiltrate, such as helping orphans, and even giving alms from the proceeds of their efforts.

In this case the theory used in analyzing the verse of *zakat* is by means of Tafsīr *al-lughawiy li ihtimāliyat al-khiṭāb al-syar'ī* (interpretation of the language because *khiṭāb syar'ī* contains several possibilities).<sup>214</sup> By using this language interpretation we will be able to see the desired meaning in Surat al-Taubah verse 60 as follows:

إِنَّمَا الصَّدَقَاتُ لِلْفُقَرَاءِ وَالْمَسْكِينِ وَالْعَامِلِينَ عَلَيْهَا وَالْمُؤَلَّفَةِ قُلُوبُهُمْ وَفِي  
الرِّقَابِ وَالْغَارِمِينَ وَفِي سَبِيلِ اللَّهِ وَابْنِ السَّبِيلِ فَرِيضَةً مِّنَ اللَّهِ ۚ وَاللَّهُ عَلِيمٌ  
حَكِيمٌ

“Zakah expenditures are only for the poor and for the needy and for those employed to collect [zakah] and for bringing hearts together [for Islam] and for freeing captives [or slaves] and for those in debt and for the cause of Allah and for the [stranded] traveler - an obligation [imposed] by Allah And Allah is Knowing and Wise”. (At-Taubah 9:60).

According to *jumhur ulama* 'that giving zakat to the eight groups is not obligatory, but may only give to some depending on the needs of *mustahiq*. *Jumhur ulama* 'says that the letter *lām* in surat al-Tawbah (9): 60 does not mean *li al-tamlīk* but *li ajl* means *li ajli al-maṣraf* (for distribution), thus according to the Hanafiyah may distribute zakat to all groups and also may only channel to one group because the purpose of the verse is to explain the

<sup>214</sup>Thoriquddin, *Pengelolaan Zakat Produktif*, p. 129

group of zakat recipients who may be given zakat not the determination of zakat. In other words, the distribution of zakat assets must not be leveled to all mustahiq groups but may only be channeled to one group.

Relying on his opinion about the property ownership status of zakat on the Syafi'i madzhab, on the other hand in the process of distributing it using the *jumhur Madhhab* including Imam Hanaf. This is what is referred to in fqh as *talfiq* (bringing together two opinions in one case), or eclecticism. In relation to the case of eclecticism there is no problem because according to most scholars

## CHAPTER V

### CLOSING

#### A. Conclusion

The similarities of *Qardhul Hasan* financing in both institutions as follows; El-Zawa took funds from *zakat* distributions, namely employee salary deductions and guardian's student meeting. Meanwhile, Melaka Islamic Religion Council (MAIM) took the funds from the results of *Zakat al-fitr* (zakah of breaking the fast) and *zakat al-mal* (zakah of wealth) based on *zakat* quotes under the government of Melaka state distributions through the *Asnaf Gharimin* program with views by Yusuf Qardhawi. The differences between *Qardhul Hasan's* financing in both institutions are El-Zawa giving loans to customers of *Ashnaf* 8, Employees/Lecturers/UIN Malang Students and the

societies. Loan limits are given a minimum of Rp. 1,000,000 and a maximum of Rp.5,000,000 in installments for 20 months. There are two kinds of *Qardhul hasan* financing, namely: (1) *Qardhul Hasan Consumtive* (2) *Qardhul Hasan Productive*. Meanwhile, Melaka Islamic Religion Council (MAIM) gave loans only to *Ashnaf Gharimin*. Loan limits are given a minimum of RM 1,000 and a maximum of RM. 5,000 in installments for 2 years 9 months. *Qardhul Hasan's* financing is only through *Asnaf Gharimin*.

*Qardhul Hasan's* financing practices in both institutions of El-Zawa Center for *Zakat* and *Waqf* Studies and the institution of Islamic Religion Council (MAIM) are allowable (*Jaiiz*), because the status of ownership and distribution of the assets of *zakat* in el-zawa and MAIM uses the concept of *talfiq* (uniting two opinions or more in one case), namely the ownership status following the *Syāfī* madzhab, and the distribution of the opinions of the *jumhur* schools including Imam Hanafi. Thus the analysis of the *Qardhul hasan* fiqh contract used in the El-Zawa UIN Malang institution and the Melaka Islamic Religion Council Malaysia has met the requirements.

## B. Suggestion

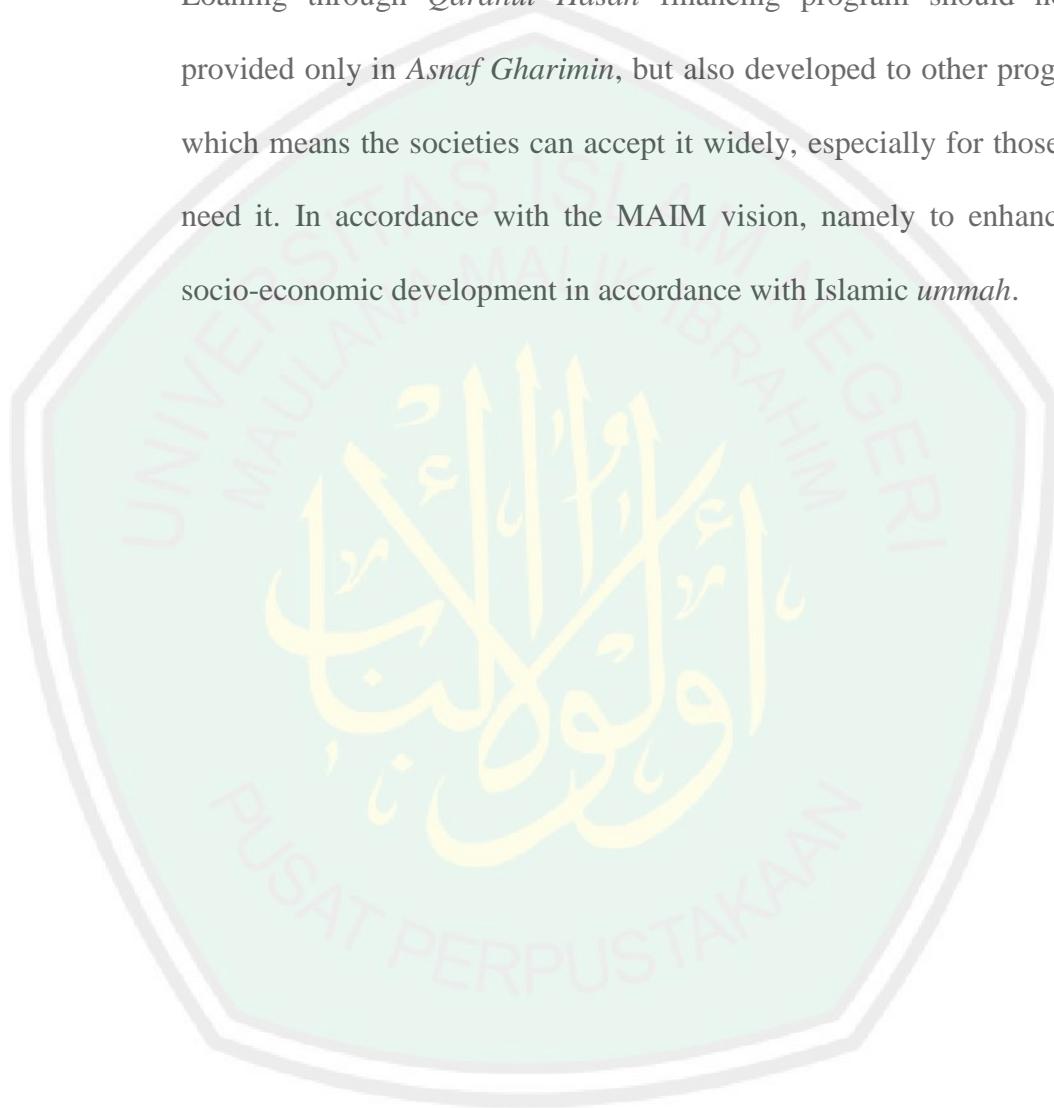

### 1. El-Zawa UIN Maliki Malang

The management of *zakat* funds in el-Zawa UIN Maliki Malang through *Qardhul Hasan* financing program should be reviewed, especially in the consumptive program. Meanwhile, the productive *Qardhul hasan* should

be developed in order to exceed the amount of outflows on *Qardhul Hasan* consumptive.

2. Melaka Islamic Religion Council (MAIM)

Loaning through *Qardhul Hasan* financing program should not be provided only in *Asnaf Gharimin*, but also developed to other programs, which means the societies can accept it widely, especially for those who need it. In accordance with the MAIM vision, namely to enhance the socio-economic development in accordance with Islamic *ummah*.
