Marriage is a sacred bond and commitments between men and women as husband and wife, that allowed them to make sexual intercourse, and as a religious institution which aimed at maintaining the continuity of human life on the earth. A person who is married, would expect the family built become harmonious to create family harmony before marriage; the brides must be prepared it. One of that must be prepared is health check before marriage. In a health check as an effort to form a family harmony there must be support from family. From the problems above, the researchers want to know how the family response and the contribution of family support for Implementation of the Health checks before marriage as effort to establish family’s harmony.

With a qualitative descriptive approach, This thesis will describe some of the data obtained from field either by interview, observation, and documentation. And Then proceed with the editing process, classified, and then analyzed. Furthermore, the analysis process is also supported by the literature review as a reference for strengthening the data obtained from the field. So with such processes, a conclusion can be obtained as answers to two questions above.

From two questions above, came the answers about how the family response brides for Implementation of the Health checks before marriage as effort to establish family’s harmony. From this study, researchers get results that the family of brides give supports, either informational support, emotional and instrumental. So with the support of the family, the brides are not reluctant to carry out health checks before marriage. Furthermore, The Family’s support give contributions to the brides such of mental strength for Implementation of the Health checks before marriage. From the interactions between the family and the the brides, there is found the attentions from the family. It resulted in the creation of harmony within the family, because with healthy interactions and a good communications between the family and the brides could create a harmonious family so that family members feel comfortable in a family environment.
