**Keywords: Munawir Sjadzali, Inheritance, Progressive Law**

Munawir Sjadzali, who at that time served as the Minister of religious affairs of Indonesia brought up the idea of the need for the implementation of Islamic law concerning inheritance law of the Division changes between boys and girls that used to be 2:1, compared to 1:1, a very simple but very basic, resulting in prolonged polemics, among groups that are pro and contra groups.

In line with the discipline implementation of Islamic law of Munawir Sjadzali inheritance field, there is a law of common law categories which have a similirary of logic Reactualization Munawir Sjadzali is reason Islamic law. The discipline that he proposed to is called with the progressive law developed by Satjipto Rahardjo.

The law which is offers a Progressive law that should be able to be in line with the development of the times, to be able to respond to the change of times, with all the bases within, as well as to be able to serve the public with resting on the morality of human resources.

This research as the law enforcement agentis normative research; Library Research by applying concept approach. Therefore, in order the research run well researcher used documentation. According to the type of research, processing and analysis of data that researcher used are method in collecting the dataengineering Critical Analysis.

The results of the research show that Munawir Sjadzali method is a method of analysis of the *'urf* fiqhiyyah principle and logical method of analysis (*ta'wil*). While the concept of a progressive law is similar to the rule that the researcher has mentioned as methods of interpretationof Munawir Sjadzali used in the implementation of inheritance law, i.e. the Changing of the law is based on era, place and circumstances. They, indeed, both are generated from two sources and different dimensions, but meet in a single point in common, namely a change for the sake of achievement of demanding a justice for the community.
