

ABSTRACT

Najibuddin, Fikri. 2015 Connection Spiritual Quotient With self control Students Tebuireng Jombang. Thesis. The Faculty Of Psychology Of Islamic State University Of Malang.
Supervisor: Prof. Dr. H. Mulyadi, M. Pd.

At this time the ability to control themselves evolved in line with the maturity of emotion. The experts argued that self control can be used as a preventive interventions in addition to the reduction of the effects of negative psychological environment. In every action undertaken by human beings always starts from this in his heart, and this heart is the center of spiritual intelligence. Problems in the research on deduce to find out whether there is a relationship of Spiritual Quotient with self control students Tebuireng pesantren Jombang. The goal of researchers is to figure out whether or not there is a Spiritual relationship Quotient with self control students Tebuireng pesantren Jombang.

This research uses a quantitative approach. Data collection by using question form and documentation. Data analysis use product moment correlation. The population used is santri tebuireng boarding schools XI MA-level.

From the results of the analysis can be aware that Spiritual Quotient level of students in class XI Madrasah Aliyah residing in boarding schools that have a high level of Spiritual Quotient i.e. 17.8% (16 respondents), the level being 73,3% (75 respondents), and the low level of 8.9% (9 respondents) level control Diiri on santrikelas XI Madrasah Aliyah residing in boarding schools that have a high level of Quotient Spirital i.e. 18,9% (17 respondents) 71,1% medium level (64 respondents), and the low level of 10% (9 respondents from the output above, it can be noted that count $X^2 = 3.4$. When X^2 table $>$ count then $3.4 > 216.982$, it can be inferred that the H_a is received. Then from the above output also found that probability = 0.030. When the probability < 0.05 then $0.030 > 0.05$ can be inferred that the H_a is received. From the results above, it can be concluded that there is a connection between the Spiritual Quotient (SQ) with self control students Tebuireng boarding schools.

Keywords: Spiritual Quotient (SQ), self control
