One of the products fund (funding) offered by the PT. Bank Muamalat Indonesia Tbk. Rawamangun Jakarta branch is mudharabah deposits. This product as the planning needs of customer funds in the future provide two main benefits are long-term investments and suitability with the concept of sharia maqashid. From this background, the researchers had two objectives, namely: (1) analyze the implementation and the constraints mudharabah deposits in PT. Bank Muamalat Indonesia Tbk. Rawamangun Jakarta branch and its completion. (2) Describe the application of deposits mudharabah application at PT. Bank Muamalat Indonesia Tbk. Rawamangun Jakarta branch if it is appropriate maqashid sharia.

This research was conducted at PT. Bank Muamalat Indonesia Tbk. Rawamangun Jakarta branch using qualitative research method with a descriptive approach with the method of observation, documentation, and interviews with banks namely Funding Manager, Customer Service, Back Office, and Teller.

Based on these results, it can be seen on the implementation of Mudharabah deposits, namely: (1) Application of Sharia maqashid deposits mudharabah meet Dharuruiyyat and classified on the criteria Hifdzul maal (2) From the observation researchers mudharabah deposit application meets the criteria applied sharia maqashid this is reinforced by there were no transactions that contain elements of usury.
