**Hidayat, Ahmad Alif Nur. 2014. The design of the rehabilitation center of the childlaw in Lamongan. The Final Task Of The Department Of Architecture. Faculty of science and technology. Islamic University of Maulana Malik Ibrahim. Supervisor (I) Agus Subaqin, MT (II) Arief Rakhman Setiono, MT**

The child is one of God's gifts to the surrogate parents. A gift that will be beautiful when treated with good condition. As well as a child, will be a gift for a progress in a country. A lot of the wrong child in the parental controls as well as an environment that makes it wrong to be a conduct that is sometimes beyond the nature of the good. So sometimes they become a child is wrong and violates the behavior of people to behave well and true. Because they are the gifts that God deposited. The child law, not only guided but still get good surveillance. And this is where the role of a rehabilitation is present. Rehabilitation for children of Problematic law, aimed at controlling and pembimbinga in terms of religious education, character, as well as coaching in rehabilitation. Instead of a correctional facility is not in compliance with the actual behavior and age like them. The troubled son of the law different from adults, so it's basically making an act of criminal merke because factors where they haven't been thinking properly. It's just that they did so because of the desperate or the environment they are wrong.

A building rehabilitation is one of the responsibilities of the Government of the importance of education against children, including children of Problematic law. The Government has the role of the law is not just putting the child at the correctional facility, but also how the Government is also accountable about the place that is able to educate them worked better. Because the law also have the right to learn and get instruction in the right way. From the number of Data of the child law, East Java in the area with one of the number of cases of criminality in children that much, so it takes place that is able to accommodate children of Problematic Law properly. And one of those places that can be used as a place of rehabilitation of the child law is in Lamongan.

Lamongan is one of the areas with potential as a place of rehabilitation of the childlaw. With designated town of Lamongan as one worthy of Children in East Java. So the role of the Central Government and regions Lamongan is able to develop children's Rehab is good and appropriate. In addition the role theme "Sociality Territory" will play a role as a medium to create a rehabilitation center a good boy with the requirements are met. As well as the needs and activities of the Child Law are to be up and running in accordance with the education and the role of them later when it's out of the children's rehabilitation center.
