Keywords : Evaluation Practice Sharing, Sharing Practice Procedures, For The results of the study of Islam.

In practice the results of operations of sugarcane, sugar mills are parties who provide services of milling sugar cane farmers. While sugarcane is the producer of sugarcane farmers who need the services of a sugar mill grinding. In the implementation of cooperative sugar factories Gempolkrep provide capital loans to farmers to buy seeds, fertilizer, and soil treatment. For the results of the factory and the farmers in accordance with the agreement was 70 % and 30 % for farmers to plant. But the cooperative relationship between sugar mills and farmers are not always harmonious. In result of cane for farmers feel disadvantaged in sharing system which has been done by the factory. In order to create alignment it is necessary to evaluate the results of operations practices for cane sugar factory Gempolkrep in Mojokerto. The purpose of this study was to determine how the results are applied to the practice at Sugar Factory Gempolkrep in Islamic perspective. From that background that this study was conducted with the heading " Results of Operations Evaluation Practice For Sugar Cane Factory Gempolkrep in Mojokerto in Islamic Perspective ".
