

ABSTRACT

Silvia, Nailus. 2014. THESIS. Analysis of the Role of Risks Management in Creating Good Corporate Governance (Case Study on BRI Syariah Branch of Malang).

Advisor: Dr. H. Ahmad Djalaludin, Lc., M.A

Keywords: Good Corporate Governance, Risks Management, BRI Syariah, PBI

This study is aimed at analyzing the role of management of sharia banking in creating good corporate governance. It is mainly because the implementation of risks management has a prominent role in determining health banking. More importantly, sharia banking has a strict regulation compared to conventional bank by its Dewan Pengawas Syariah (DPS) and Bank of Indonesia (BI). Similiarly the implementation of good corporate governance

In this study, the primary data is originated from interview of three parties; leader of branch of Malang, branch quality assurance, and legal officer. Secondary data, in addition, is taken from annual report of BRI Syariah year of 2013.

The result of this study shows that BRI Syariah, branch of Malang is appropriate to the regulation of Bank of Indonesia number 11/33/PBI/2009 in performing good corporate governance including transparency, fairness, responsibility, accountability, and independency. Moreover, it is also done in terms of risks management including financing risk, market risk, liquidity risk, pursuance risk, strategic risk, law risk, reputation risk, and operational risk. Some benefits are gained once risks management and GCG done at one time that is conducive work of employees in the safe, comfort, health and clean place, practitioner can learn from any previous mistakes, raise of image, reputation and credibility of company in front of stakeholder.
