ABSTRACT

Maelani, Ika. (2020) *English Taboo Words Used by PUBG Gamers on Litomatoma YouTube Channel*. Undergraduate Thesis. Department of English Literature, Faculty of Humanities, Universitas Islam Negeri Maulana Malik Ibrahim Malang. Advisor: Mazroatul Ishlahiyah M. Pd.

Keywords: *Taboo words, PUBG game, Gamers, Litomatoma*

Online games are top-rated in all groups of people, such as children, young and older people. One of the most popular games today is PUBG (*Player Unknown's Battlegrounds*) game. In the PUBG game, communicating with teammates in a group is very important, otherwise, they will not be able to get *chicken dinner* (expressing Victory in the PUBG game). When they are communicating with their team, they utter the taboo words which have bad meaning in society. Therefore, this research aims to investigate the type and function of English taboo words used by PUBG gamers on *Litomatoma* YouTube channel. It also analyzes the pattern of English taboo words used by male and female PUBG gamer on *Litomatoma* YouTube channel.

This research used descriptive qualitative research as the research method because this research requires qualitative data selection to be analyzed in the form of descriptive. The object of this research is PUBG game videos on *Litomatoma* YouTube channel. There were 15 videos selected for this research according to the criteria needed for this research. The data are the utterances of gamers which contain of English taboo words in PUBG game videos on *Litomatoma* YouTube channel. In analyzing the data the researcher used two theories. The theory used to classify the type of English taboo words is Bastistella (2005), and the theory used to find the of function of English taboo words is Wardaugh (2006).

The results of this research are stated as follows. First, in the types of English taboo words, the finding shows that PUBG gamers on *Litomatoma* YouTube channel used all the types of English taboo words according to Bastistella (2005). These types are epithet, profanity, obscenity, and vulgarity. From 132 data found in the video, obscenity has the most significant number of occurrences. Obscenity is the most appearing type in this research because it is considered to be the most effective way to insult someone. The players in the videos frequently utter obscenity to draw attention to the addressee. The smallest number of taboo words' type is an epithet. Epithet becomes the least to occur in this research because the gamers do not find that epithet can effectively hurt other people's pride. Second, in the function of English taboo words, according to Wardaugh (2006), only three functions of taboo words used by PUBG gamers. The functions are to draw attention to oneself, to show contempt, and to be provocative. The most appeared function is to draw attention to oneself. Most of the use taboo words when they want to show their attention to others. To mock authority function was not used by the gamers because the central theme of the video is to entertain, which is not concerned in criticizing governmental affairs. Third, the pattern of English taboo words are used by males and females in the video on *Litomatoma* YouTube channel. There is no difference in using English taboo words by both male and female gamers in PUBG game videos on *Litomatoma* YouTube channel. They use English taboo words obscense type frequently and the function is to draw attention to oneself, but in term of frequency, male uses more English taboo words than females.

ABSTRAK

Maelani, Ika. 2020. *Kata Tabu Bahasa Inggris Yang Digunakan Oleh Pemain PUBG di channel Youtube Litomatoma*. Skripsi. Program Studi Sastra Inggris. Fakultas Humaniora. Universitas Islam Negeri Maulana Malik Ibrahim Malang. Pembimbing: Mazroatul Ishlahiyah, M. Pd.

Kata kunci: *kata tabu, permainan dalam jaringan (PUBG), Pemain PUBG Litomatoma*

Permainan dengan menggunakan jaringan sangat populer di semua kalangan seperti anak-anak, anak muda hingga orang tua. Salah satu permainan yang dimainkan dalam jaringan yang paling populer saat ini adalah PUBG (*player Unknown's battlegrounds*). Dalam PUBG, berkomunikasi dengan rekan satu tim adalah hal yang sangat penting. Jika tidak, pemain tidak akan bisa mendapatkan *chicken dinner* (mengekspresikan kemenangan dalam PUBG). Ketika pemain berkomunikasi dengan tim, mereka mengucapkan kata-kata tabu yang merupakan kata yang bermakna buruk dalam masyarakat. Oleh karena itu, penelitian ini bertujuan untuk menyelidiki jenis dan fungsi kata tabu bahasa Inggris yang digunakan oleh pemain PUBG pada channel YouTube *Litomatoma*. Penelitian ini juga menganalisis jenis kata tabu bahasa Inggris yang digunakan oleh pemain PUBG laki-laki dan perempuan pada channel YouTube *Litomatoma*.

Penelitian ini menggunakan metode penelitian deskriptif kualitatif karena memerlukan data kualitatif yang telah dipilih untuk dianalisis dalam bentuk deskriptif. Objek penelitian ini adalah video dari permainan dalam jaringan yaitu PUBG di channel YouTube *Litomatoma*. Ada 15 video yang dipilih untuk penelitian ini sesuai dengan kriteria yang dibutuhkan. Di penelitian ini data yang diambil adalah dalam bentuk ucapan para pemain PUBG dalam video channel YouTube *Litomatoma* dimana ucapannya mengandung kata tabu dalam bahasa Inggris. Ada dua teori yang digunakan dalam penelitian ini. Teori yang digunakan untuk mengklasifikasikan jenis kata tabu bahasa Inggris adalah teori milik Bastistella (2005), sedangkan teori yang digunakan untuk meneliti fungsi kata-kata tabu bahasa Inggris adalah teori milik Wardaugh (2006).

Hasil penelitian ini dinyatakan sebagai berikut. Pertama, dari segi jenis kata tabu bahasa Inggris, penelitian ini menunjukkan bahwa pemain PUBG pada channel YouTube *Litomatoma* menggunakan semua jenis kata tabu bahasa Inggris. Menurut Bastistella (2005), jenis-jenis kata tabu ini adalah *epithet*, *profanity*, *obscenity*, dan *vulgarity*. Dari 132 data yang ditemukan di video, kata *obscenity* memiliki jumlah yang paling sering diucapkan. Kata *obscenity* adalah jenis yang paling sering diucapkan karena dianggap sebagai cara paling efektif untuk menghina seseorang. Para pemain dalam video sering mengucapkan kata-kata *obscenity* untuk menarik perhatian orang yang dituju. Jenis kata tabu yang paling sedikit muncul adalah *epithet*. *Ephitet* paling jarang diucapkan karena para pemain menganggap bahwa julukan tidak efektif untuk menyakiti orang lain. Kedua, dalam fungsi kata-kata tabu bahasa Inggris menurut Wardaugh (2006), hanya tiga fungsi yang digunakan oleh pemain PUBG, yaitu fungsi untuk memberi perhatian, untuk menunjukkan penghinaan, dan untuk melakukan provokatif. Fungsi yang paling sering muncul adalah menarik perhatian pada orang lain. Sebagian besar pemain menggunakan kata-kata tabu ketika mereka ingin menunjukkan perhatian kepada orang lain. Karena tema utama dari video ini adalah untuk menghibur, maka fungsi untuk mengejek fungsi otoritas tidak digunakan oleh para pemain sehingga mereka tidak memperdulikan hal-hal yang terkait mengkritik pemerintah. Ketiga, pola kata-kata tabu bahasa Inggris digunakan oleh baik laki-laki dan perempuan dalam video PUBG Game di saluran YouTube *Litomatoma*. Tidak ada perbedaan antara pemain laki-laki dan pemain perempuan dalam menggunakan kata tabu dalam bahasa Inggris Mereka menggunakan kata tabu *obscenity* untuk menunjukkan perhatian kepada orang lain. Tetapi jika dilihat dari frekuensi, laki-laki lebih banyak menggunakan kata-kata tabu dalam bahasa Inggris dari pada perempuan.

ميلاني، إيكّا. 2020. كلمة المحرمات في اللغة الإنجليزية التي استخدم اللاعبون (PUBG) في قناة ليتوماتوما يوتوب. بحث العلمي. قسم اللغة الإنجليزية وأدبها. كلية الإنسانية. جامعة مولانا مالك إبراهيم الإسلامية الحكومية بمالانج. مشرفة: الدكتورة مزرعة الإصلاحية الماجستير.

الكلمة المفتاحية: كلمة المحرمات، لعبة (PUBG)، اللاعب المباشر، لتوماتوما

تعتبر الألعاب عبر الإنترنت بشعبية كبيرة في جميع الدوائر والمراحل، من الأطفال والشباب والكبار من السن. و من إحدى الألعاب شعبية الآن هي لعبة PUBG. في لعبة PUBG، التواصل مع أعضاء الفريق مهم جدًا. خلاف ذلك، لن يتمكن اللاعب من الحصول على النجاح (معبّرًا عن الفوز في لعبة PUBG). عندما يتواصل اللاعبون مع الفريق، فإنهم يقولون كلمات محرمة وهي كلمات لها معنى سيئ في المجتمع. لذلك، تهدف هذه الدراسة إلى التحقق من أنواع ووظائف كلمات المحرمات الإنجليزية التي يستخدمها لاعبو PUBG على قناة Litomatoma YouTube. كما حللت الدراسة أنواع الكلمات الإنجليزية المحظورة التي يستخدمها لاعبو PUBG الذكور والإناث على قناة Litomatoma YouTube.

تستخدم هذه الدراسة طرق بحث نوعية بشكل صفيّة لأنها تتطلب بيانات نوعية تم اختيارها لتحليلها في شكل وصفي. وتتركز هذا البحث في فيديو من لعبة PUBG على قناة ليتوماتوما على يوتوب. تم تحديد 15 مقطع فيديو لهذه الدراسة وفقًا للمعايير المطلوبة. يتم أخذ البيانات في شكل نصوص الكلام أثناء مشاهدة الفيديو. هناك نوعان من النظريات المستخدمة في هذا البحث. يتم تحليل النظرية المستخدمة لتصنيف أنواع الكلمات المحظورة الإنجليزية باستخدام Bastistella (2005)، بينما يتم تحليل نظرية ووظيفة الكلمات المحظورة الإنجليزية من المستخدمين باستخدام Wardaugh (2006).

نتائج هذا البحث المذكور على النحو التالي. أولاً، من حيث أنواع الكلمات المحظورة الإنجليزية، يوضح هذا البحث أن مشغل PUBG على قناة ليتوماتوما بيوتوب، يستخدم جميع أنواع الكلمات المحظورة أو محرومة الإنجليزية. وكما قال Bastistella (2005)، فإن هذه الأنواع من الكلمات المحظورة أو محرمات هي الاسم المستعار والألفاظ البائبة والفحش والابتذال. من بين 132 بيانات تم العثور عليها في الفيديو، تحتوي كلمة الفحش على الرقم الأكثر استخدامًا. كلمة الفحش هي النوع الأكثر استخدامًا في هذه الدراسة لأنها تعتبر الطريقة الأكثر فعالية لإهانة شخص ما. غالبًا ما يقول اللاعبون في الفيديو كلمات فاحشة لجذب انتباه الشخص المقصود. أقل عدد يظهر هو نوع الكلمات المحرمة هي ألقاب. أصبح اللقب هو الأقل تحدثًا في هذه الدراسة لأن اللاعبين اعتبروا أن الاسم المستعار لا يمكن أن يضر بشكل فعال بسعر الآخرين. ثانيًا، في وظيفة الكلمات المحرمة الإنجليزية وكما قال Wardaugh (2006)، يتم استخدام هذه اللعبة على ثلاث وظائف فقط من قبل لاعبي PUBG. هذه هي الوظيفة التي يجب الانتباه إليها، وإظهار الازدراء، والاستفزاز. الوظيفة التي تظهر غالبًا هي جذب الانتباه للآخرين. يستخدم معظم اللاعبين الكلمات المحظورة عندما يريدون إظهار الاهتمام بالآخرين. لأن الموضوع الرئيسي لهذا الفيديو هو التسلية، فإن وظيفة الاستهزاء بوظيفة السلطة لا يتم استخدامها من قبل اللاعبين حتى لا يهتمون بالأمور المتعلقة بانتقاد الحكومة. النمط الثالث من الكلمات المحظورة الإنجليزية التي يستخدمها الرجال والنساء في فيديو لعبة PUBG التي يوجهها قناة ليتوماتوما بيوتوب هو

INTRODUCTION

This chapter presents the background of the study, research questions, objectives of the study, scope and limitation, significances of the study, definition of key terms, previous studies, research method (research design, research instrument, data and data source, data collection, and data analysis).

A. Background of the Study

Nowadays, online games are top-rated in all groups, such as children, young and older people. According to Ismail (2016), online game is a game that can be accessed by many players from all over the world, using a rapidly growing internet network and is loved by many groups. One of the most popular games today is PUBG (Player Unknown's Battleground) game. It is a game that must survive to fight one hundred players and be the last to live who survive till the end, they are the winner. According to Sitta (2019), the use of PUBG game has increased every year after the PUBG game was released by PUBG companies in 2017, more than 100 million users who enrolled in this game, therefore, PUBG games get the award as "the best mobile game in the game Awards in 2018."

In the PUBG game, communicating with teammates in a group is very important, otherwise, they will not be able to get chicken dinner (expressing the victory in the PUBG game) (Cube, 2018). Therefore, if PUBG players have not communicated well in a team, it will cause mass communication, and they will lose the game. They communicate using language, therefore, someone needs to

have language as a means of communication. The language used by gamers has its characteristics in expressing their feelings when playing games. Besides the use of language to direct their team, the gamers also blurted out a lot of blasphemous or cursed words that indicate resentment or happiness (Mayasari, 2019).

The use of language is not necessarily following with the norms, rules, or language ethics that have been agreed upon and used as guidelines for behavior, including language behavior (Sihyar, 2013). Language or language form is not by these norms is considered rude or inappropriate to be used or spoken in any place. This term is called taboo. Taboo is a word that is not considered suitable by the community or is better avoided because players mention the reality that is considered rude and impolite. Taboo describes something that is prohibited and dangerous because it is not right with religion and customs in society. Taboo is the avoidance or absence of conduct in any culture considered to be dangerous to its members because it would cause fear, humiliation, or shame to them (Wardhaugh, 2006).

Taboo words are always associated with forbidden language and cannot be used in everyday conversation. Taboo words are still considered offensive and savage words in most languages (Anggi, 2015). In America, formerly, there were strict rules to avoid using taboo words in public. The use of taboo words such as *fuck*, *shit*, *mother fucker*, and *damn* will lead to prosecution and imprisonment. Therefore the taboo words are not used in print media such as newspapers, magazines, etc. However, it seems that this time, the attitude towards the function of taboo words has changed. The change occurred because the legal sanctions

disappeared, and there was a tendency that now people are more relaxed and accepting the taboo words. As a result, taboo words now commonly find when someone expresses emotive feelings.

Many games contain English taboo words. According to Ningrum (2012), people are playing an online game, and they are producing inappropriate words to express their feeling as long as they play the game online with their friends. The researcher chooses the PUBG game because nowadays, people prefer playing PUBG game than other games. Proven by the data, more than two million people download this game since its release in 2017 (Sitta, 2019).

Many gamers are playing online games via live streaming YouTube or known as Game streamers. It means that the PUBG players not only play PUBG games in the application PUBG but they can also play live on You-Tube. A game streamer is someone who records a game. Then, share the video through live streaming platforms on the internet. Nowadays, YouTube is very popular in society. According to Savitri (2017), YouTube is more popular because there are many kinds of YouTube channel, which are interesting and qualified. The increasing popularity of YouTube has also become a new reference for people to earn money. From that phenomenon, people are competing to make a YouTube channel, including gamers. It is a chance for them to make YouTube content about the game. They can share how to be good players, how to know the skill and trick in the game.

The researcher chooses the *Litomatoma* YouTube channel because there are many contents about PUBG games videos displaying fight between males and females in the *Litomatoma* YouTube channel. Therefore, the researcher is interested in analyzing the taboo words in the videos which have bad meaning in society. *Litomatoma* is an American who is a gamer's content creator on YouTube or called a game steamer with six hundred forty-six subscribers. The researcher wants to analyze the English taboo words by PUBG gamers on *Litomatoma* YouTube channel using the theory of English taboo words by Bastistella (2005), they are; Ephitet, Profanity, Vulgarity, Obscenity, and the theory of function of English taboo words by Wardaugh (2006), they are; to draw attention to oneself, to show contempt, to be provocative.

Several researchers have conducted a study of English taboo words. They investigate the use of English taboo words in various context, for example, the use of English taboo words in the movie from Rahmayani and Ftrawati (2018), Miarta, Muliana, and Mahayana (2019). Those previous studies only analyze the type and the function of English taboo words. The next one is the use of English taboo words in translation from Robati and Zand (2018). They also find the frequency type of English taboo words in a novel. Another previous study is the use of English taboo words by both genders from Mohammadi, Roumiani, and Tabari (2014), Hashamdar (2018), and other studies. From those several previous studies, the researcher finds the gap in this research. The gap of this research is the researcher analyzes English taboo words used by PUBG gamers on *Litomatoma* YouTube channel. The researcher uses the theory of classification English taboo

words by Bastistella (2005) and the function of English taboo words by Wardaugh (2006). To make a difference from all previous studies, the present researcher shows the pattern of English taboo words used by male and female gamers.

B. Research Questions

Based on the background of the study, the research questions of this research are formulated as follows:

1. What are the categories of English taboo words used by PUBG gamers?
2. What are the functions of English taboo words used by PUBG gamers?
3. How do males and females use English taboo words in the PUBG games?

C. Objectives of the Study

Related to the research questions, the objectives of this study are:

1. To find out the categories of English taboo words used by PUBG gamers.
2. To find out the functions of English taboo words used by PUBG gamers.
3. To describe how males and females use English taboo words in the PUBG game.

D. Significances of the Study

The significance of this study is to give contributions both theoretically and practically, especially in the area of Sociolinguistics. Theoretically, the research is expected to give the example of English taboo word research, especially English taboo words used by PUBG gamers.

Practically, this research will give information to the students and lecturers of the English Literature Departement of giving additional information about English taboo words in PUBG game, specifically, to give more information about the type, function, and the pattern of English taboo words used by PUBG gamers. For the next researchers, they can use this research as a reference to analyze English taboo words with different objects and theories.

E. Scope and Limitation

The scope of this research is the Sociolinguistic field because this research is analyzing the English taboo words used in PUBG game videos on *Litomatoma* YouTube channel. The researcher limits this research on the PUBG game videos by *Litomatoma* YouTube channel. Then, the researcher identifies the type, function, and pattern of English taboo words in the PUBG game videos.

F. Definition of Key Terms

To avoid misunderstanding for the readers in conceiving the terms in this research, the definition is given as follows:

1. **Taboo words:** impolite and dirty words that are spoken by people. It relates to sex, religion, mother law, et cetera. which has very bad meaning and not worth saying.
2. **PUBG game:** game online that can be played single or team. The goal of this game is to collect the point.
3. **Gamers:** people who are playing games, both offline and online games.

4. **Litomatoma:** a YouTube channel of PUBG game videos.

G. Previous Studies

Several researchers have conducted a study of English taboo words in the movie. It was previously done by Miarta, Muliana, and Mahayana (2019) and Rahmayani and Fitrawati (2018). They investigate the type and function of English taboo words in the movie. Both of the research above use the same theory and method, but in the first research, the researchers combine the type theory of English taboo words by Jay (1992: 2) and Bastisttela (2005) and use qualitative and quantitative research as the method. While in the second research, the researchers only use Jay's (1992:2) theory and qualitative research as the method. In the function of English taboo words, both the research uses the same theory, which is the theory by Wardaugh (2006).

Many researchers have conducted the English taboo words in the translation. It was previously done by Robati and Zand (2018), and Lovihandrie, Mujiyanto, and Sutopo (2018). They investigated the types of taboo terms and strategies applied in their translation in the novel. They use the different theory to answer the research questions, the first research the researchers uses the theory by Davoodi (2007) to investigate the strategies in translate taboo words in the novel and the categorization of the taboo by Cabrera's (2014), while in the second research the researchers use Davoodi, Robinson, and Brownlie's theory to investigate the strategies in translate taboo words in the novel and the

categorization of taboo by Batistella's taboo. Both of the research above used the same method that is descriptive qualitative research.

The next previous study is an analysis of English taboo words in song lyric by Puti, Sembiring, and Imranuddin (2019), and Affini (2017). They investigate the type, function, and meaning of English taboo words which is contained in a song lyric. They use a different theory. The first research uses Timothy Jay's theory to identify the type of English taboo words, and the second research the researcher uses Bastistella theory to identify the type, function, and meaning of English taboo words. They use the different method, the first research is the descriptive qualitative method, and the second research is quantitative research.

The other previous study is an analysis of English taboo words among students at university by Mohammadi, Roumiani, and Tabari (2014). They investigate using English taboo words among university students by both genders. In this study, they use taboo words theory by Ekström's theory (2008) to analyze the English taboo word used by male and female in the university. They are using qualitative research to be their method. The result of this study shows that males in their friends' community do not consider using taboo words as something bad or a disrespecting sign, because they know the situations and their friends well. In this case, females do not use taboo words like males, this kind of behavior reveals that females in most situations do not like to use taboo words and consider it as a stigmatizing sign in someone's behavior.

The last previous study is an analysis of English taboo words by Mohammad, Hashamdar, and Rafi (2018), the title is English taboo words used by males and females when they are in an angry mood. They investigate the relationship between social identity and using taboo words by males and females to express their anger. In this study, they use taboo words theory by Wardhaugh and Fuller (2015) to analyze the English taboo word used by males and females to express their anger. They are using quantitative research to be their method in this study. The result of the study is to confirm that the percentage of using taboo language by male characters, in different social identities, was much more than that of female characters. On the other hand, by dividing the participants into two groups of those who had a university degree, and those with no university degree, the researcher concluded that both male and female participants with a university degree used less taboo words than those without a university degree.

From all the previous studies above, the researcher concludes that there is a previous study explaining English taboo words by both genders. They are English taboo words by males and females among university students and the use of English taboo words when they are in an angry mood used by male and female. This research is similar to the last two previous studies above, the researchers discuss English taboo words by both genders but, in different theories and objects. In this study, the researcher used the theory of type of English taboo words by Bastistella (2005) and the function of English taboo words by Wardhaugh (2006), The object of this research is the PUBG game videos on *Litomatoma* YouTube channel.

H. Research Method

This part explains about research design, research, data and data source, data collection and data analysis.

1. Research Design

This research used descriptive qualitative research design to analyze the data about types and functions of English taboo words used by male and female PUBG gamers in videos on *Litomatoma* YouTube channel. This research is categorized as a descriptive qualitative method since the data is in the form of words than a number. According to Bodgen and Taylor (1991: 3) cited in (Wibowo, 2008), they stated that the qualitative method is the research procedure which is the result in descriptive data including written and spoken words from the object of the study. The researcher used this method because the researcher wanted to describe the utterances of English taboo words in the PUBG videos game on YouTube channel.

2. Research Instrument

In this research, the researcher was the key instrument. The researcher analyzed and interpreted the data by herself without involving other instruments. Therefore, the researcher was the only one who did this research to collect information and interpret English taboo words among PUBG games by male and female gamers.

3. Data and Data Source

The data source of this research is PUBG game videos that are uploaded on *Litomatoma* YouTube channel. The researcher found the data source from <https://www.youtube.com/channel/UCxSqpCebexmeMUsvHvpypkg/videos>.

There are 15 PUBG game videos containing male's and female's utterances when they are playing PUBG game on *Litomatoma* YouTube channel. The data are the utterances of PUBG gamers, which consist of various utterances containing English taboo words.

4. Data Collection

The researcher collected the data through several steps. First, the researcher watched the *Litomatoma* YouTube channel from: <https://www.youtube.com/channel/UCxSqpCebexmeMUsvHvpypkg/videos>. Second, the researcher found 137 videos from that channel and selected videos which contained males and females when they were playing PUBG games. Third, the researcher found 15 videos that contained males and females on *Litomatoma* YouTube channel. Fourth, the researcher watched 15 videos, transcribed, and the last was the researcher printed out the transcript, and then underlined the utterances that contained English taboo words by Bastistella (2005).

5. Data Analysis

In data analysis, the researcher analyzed 15 PUBG game videos on *Litomatoma* YouTube channel. After the researcher collected the data, the researcher then conducted several steps to analyzed the data. Firstly, the researcher classified the type of English taboo words by Bastistella's (2005) theory and the function of English taboo words by Wardhaugh's (2006) theory. After that, the researcher classified the type and function and analyzed the pattern of English taboo words used by male and female gamers in PUBG game videos by *Litomatoma* YouTube channel. Finally, researcher concluded the whole analysis.

CHAPTER II

REVIEW OF RELATED LITERATURE

This chapter explores the review of related literature containing several theories to guide the process of this research. It consists of some sections: Sociolinguistics, language and gender, taboo, the definition of taboo words, classification of taboo (taboo epithet, taboo profanity, taboo vulgarity, taboo obscenity), the function of taboo words, and PUBG game.

A. Sociolinguistics

Sociolinguistics is an interdisciplinary science between sociology and Linguistics, two fields of empirical science that are closely related. Sociology is an objective and scientific study of people in society, institutions, and social processes that exist in society. According to Wardaugh and Fuller (2015), Sociolinguistics is the study of our everyday lives-how language functions in daily interactions and the media that we are exposed to, and the existence of social norms, policies, and laws that discuss language.

Trudgill (2000) proposes that Sociolinguistics is a part of linguistics which is connected with language as a social and cultural phenomenon. The way people speak is determined by the social context in which their speaking takes place. People use language is fitting for the situation they are talking to, who they are talking to, and how close their relationship with the listeners are. People can express their message in different ways or different language varieties concerning these factors. In several nations, including America and Britain, language

differences along racial, cultural, and social lines have become too obvious (Holmes, 2001). Sociolinguistics is concerned with understanding why people talk differently in different social environments, defining language's social role, and identifying how it is used to communicate social meanings.

According to Holmes (2001), Sociolinguistics is to study the relationship between language and society. They are interested in explaining why we speak differently in different social contexts. They are concerned with identifying the social function of language and the ways it is used to convey social meaning. Examining how people use language in different social contexts provides a wealth of information about the way language works, as well as about social relationships in a community, and how people signal aspects of their social identity through their language. There are some potential connections between linguistic and society

The first potential connection is that social structure may either affect linguistic structure and actions or decide it. There are; to support this view: the trend of age classification by which young children talk differently from mature adults; studies showing that the language varieties used by speakers represent things such as geographical, social or ethnic origin or, likely, gender; and other studies showing that certain social requirements highly influence particular ways of speaking, choices of words and even rules of speech.

The second possible connections is directly opposite to the first: linguistic structure and behavior may either affect the social structure or decide it. The third possible is that it has a bi-directional effect: language and culture will affect one

another. One variant of this approach is that this influence is dialectical. The fourth possibility is to assume that there is no relationship at all between linguistic structures and that each is independent of the other. A variation of this possibility would be to suggest that while there might be any such relationship, there are attempts to describe it, considering what we know about both language and culture, being premature.

B. Language and Gender

The ways of using various languages and the social role of men and women speaking those languages include the major topic in sociolinguistic. According to Brizendine (2006), in his book *Female Brain* women could spend around 20,000 words in a day while a man only uses around 7,000 words. In reality, if we make a mistake about something at school, college, office, etc. Definitely, our mother is the first person who will get angry, and she will produce words more than our father.

Male and female have different language characteristics in terms of produce language, vocabulary, choosing topics, structure, and so on. Coulmas (2005) also claims that between male and female they are different in selecting vocabularies because naturally, they are different. Certain words are only found in the conversation between male and conversely. Female often uses certain words. For example, the words diet is a word that is often identified with female because they do that to look slimmer, which is considered a symbol of beauty. Also, according to Lakoff (1973) the female prefers to use color words like mauve, beige,

aquamarine, lavender, and magenta, but most males do not. She also maintains that adjectives such as adorable, charming, divine, lovely, and sweet are also commonly used by female but only very rarely by male. Women are also said to have their own vocabulary for emphasizing certain effects on them, words and expressions such as so good, such fun, exquisite, lovely, divine, precious, adorable, darling, and fantastic.

According to Levine and Adelman (1993), they argue that American women traditionally have an indirect to speak more politely and softly than men in requests, expressing criticism, and expressing opinions. However, when discussing issues relating to emotions and feelings, women are more direct. Besides, forms of language used by male and female differ in all speech communities. Female is considered more polite than male. To make it clear, according to Wardaugh (2006), female talks referred to self, emotions, relationships with others, home and family were the corresponding categories. It's also stated that women use more polite types and more compliments than men. In doing so, they said to try harmony with others to preserve social relationships.

In social interaction, men and women have different interests in choosing their topics. When men are talking, they are more likely to choose the topics of politics, economy, stocks, sports, and current news. Meanwhile, women have more interest in talking about family affairs, such as the education of children, clothes, cooking, fashion, etc. Women's talk is associated with the home and domestic activities, while males are associated with the outside world and economic activities. Thus, while there is a popular prejudice that women talk more than men, empirical

studies of several social situations such as committee meetings and internet discussion groups have shown the opposite to be true. Women may talk more on informal occasions than men, but they surely play the second role informal occasions and tend to speak less than men. Sociolinguists studied women's silence in public situations as well as the linguistic work they do in their partnerships (Spender, 1980). Besides these differences, other sex-linked differences exist, such as women and men may have different paralinguistic systems and move and gesture differently.

Differences in language between male and female in more detail are stated by (Sumarsono & Partana, 2002). He argued that men and female differed in many ways, such as limb movements and facial expressions, voice and intonation, phonemes, and various languages (the case of the West Indies. In some places, it was found that there were differences in words used by male and female in the case of using taboo words. (the case of American Indians in Bolivia), conservative and innovative (cases of American Indian languages) and changes in word forms (cases of Chukchi, Siberian), and women were also stated to be inclined to use a high variety of languages, and men use a variety of vernacular to better show the virility.

C. Taboo

The terms '*Taboo*' was first used by Captain Cook when he went to Tahiti in the late 18th century. According to Allan and Burrige (2006), the word Taboo or Tongan denotes dangerous individuals, objects, or acts and must be avoided. Many people will never employ words of this type, and most others will only use

them in a restricted set of situations. Taboo is related to something that is avoided and forbidden to talk about. Taboo derives from social restrictions on one's behavior that can lead to fear, damage, and injury. Since it refers to unease, hurt, and injury, people in society are supposed to avoid a vulgar-sensitive taboo (Trudgill, 2000).

To make it clear, according to Trudgill (2000), taboo may be characterized as having to do with behavior that is supposed to be supernaturally prohibited or regarded as immoral or improper; it deals with behavior that is prohibited or inhibited in an apparently irrational manner. In language, the taboo is associated with things that are not said, and specific words and expressions that are not used. There is a close connection between taboo behavior and taboo language, in keeping with the above point. Both are banned since, in some situations, they are considered unethical. Supporting the idea by (Fairman, 2009) he claims that every society has its own particular taboo act and taboo words.

Taboo acts are related to any behaviors that should be avoided, while taboo words related to any phrases that should not be uttered. These are known as some taboo acts are refer to taboo words, and others do not. The example of taboo acts are Sexual attraction or relations with people of the same gender (homosexuality), certain gestures are considered obscene (gestures), showing body parts for sexual excitement (pornography), speaking negatively about someone of another race (bigotry), this is practiced by Jews for religious reasons (circumcision), etc. while the example of taboo words are (*shit, hell, fuck, damn, Jesus Christ, goddamn, ass, bitch, oh my god, and sucks*). In this study researcher only focuses on taboo

words rather than taboo act because the researcher would analyze taboo words that are uttered by PUBG Gamers.

1. The definition of Taboo Words

Overall, people refer to taboo words as offensive terms that should not be used in everyday conversation because they can create a startling impact on the person who hears them. Linguists such as Diez in (Mashita, 2016) also supported the idea that some people categorized taboo words as the words that have terrible meaning since they contain any substance that is cruel and inappropriate so that they should be avoided. In different societies, it may be hard for an individual to understand taboo words if they do not belong to a particular society that shares the same values. Therefore, they argue that taboo words are words that should not be used entirely or at least prohibited in a particular environment or respectful situation. This means that any person who belongs to different cultures with different values should not talk about words that can scare them, particularly in polite conversations, to avoid any misunderstanding.

Another linguist defines that taboo words must be avoided. (Mbaya, 2002) who states that taboo words are any kind of word or expression in one language that is characterized by their inappropriateness, appalling character, and lack of morality that should be avoided so as not to harm the other member of society. Those linguists may suggest that it is important to avoid taboo words because they consist of strong and vulgar language. When words containing sacred roles are spoken in the context of sacred ceremonies, however, they may be tabooed. For

example, words like Jesus Christ or being cursed by God are acceptable to use in a religious sense, such as in the Church or when discussing religion. However, when they are uttered in external formal circumstances that are used to shock, offend, or criticize others such as Jesus Christ, they may become taboo, you are so God-Damn stupid! Taboo words have cultural parallels but often differ from culture to culture. In other cultures, what is considered to be taboo words in one culture may become a norm; hence, in the next section, the researcher gives a brief explanation of the classification of taboo words.

2. The Classification of Taboo Words

Batistella (2005) suggests four types of taboo words, i.e., epithets, profanity, vulgarity, and obscenity. Each of the types is explained in this section.

a. Epithet

Epithet is characterized by the existence of several types of slurs, such as *bitch* and *fag*. Other references that are included as epithet are connected to race, ethnicity, gender, sexuality, one's appearance, and disabilities such as *nigger*, *midget*, and *retard*, *motherfucker*, *tit-man* (Batistella, 2005). Jay (in Doyle 2006) defines epithet as a short but strong blast of passionate language which is triggered by frustration or anger such as son of a *bitch*.

b. Profanity

According to Batistella (2005), profanity can be categorized as religious cursing because it usually includes the foul-mouthed use of what is considered to be sacred. Being more detail, Jay in Doyle (2006) describes profanity as the

expression involving the use of religious terms in a profane, secular, or uncaring manner. The aim of the speaker is not to vilify God or anything connected with religion, but it may be used to express an emotional response to certain motives. The words that belong to this type are *Jesus Christ, hell, damn, goddamn*.

Profanity is a religious term that usually leads to irrelevant words related to the use of the name of God or Deity and other religious terms. According to Battistella (2005), profanity involves the rough use of what is considered sacred. The range of it is wide, from a mild hell or damn to a more emphatic goddamn (Ningjue, 2010). Moreover, Jay (1992) describes An example of profanity would be a word or phrase which seeks not to denigrate God, religion or holly affairs but would be based more on ignorance of or indifference to these matters. The common profanity expression employing religious terminology are Jesus fucking Christ, hell you, goddamn, and holly shit. What needs to be highlighted is that the purpose of profanity is not to vilify God or something related to religion. Profanity is commonly used to express emotional felling to certain motives.

c. Obscenity

Obscenity refers to expressions that are prohibited from public use since they involve repulsion to the sense, abhorrent, impolite, and detestable to morality (Jay, in Doyle, 2009). Moreover, according to Batistella (2005), obscenity is defined as words or expressions which involve sex differentiating anatomy or sexual and excretory function that usually uttered roughly. The words that belong to this type are *fuck and shit*.

d. Vulgarities

Vulgarity and obscenity have the same reference, especially to words or expressions that contain sexual anatomy and excretory function in a rough manner. (Batistella, 2005). The difference between vulgarity and obscenity is usually related to the level of prurience. Jay (in Mercury, 1995) asserts that vulgarity is used to humiliate or bring down the thing or individual referred to or described. The words that belong to this type are such as *ass, tit, cock, dick, and cunt*.

3. The Function of Taboo Words

Wardhaugh (2006) suggests four types of taboo words, i.e., to draw attention to oneself, to show contempt, to be provocative, to mock authority. Each of the types is explained in this section.

a. To draw attention to oneself

Sometimes people utter taboo words to get the attention of the listener. According to Edward (in Mc Guire 1973: 5-6) explains that the speakers should gain interest through the use of strong, powerful language whose connotation can stimulate an instant reaction from the audience. Therefore, people use taboo words that are believed to have power in gaining the listener's attention because of its strong connotation.

Here is an example:

Sol: What the ***fuck*** are you doing? The ***fucking*** car just died.

Cheddar: I told you stupid-ass ***niggas*** not to be doing' that shit.

In the conversation above, Sol tries to draw his friend's attention because he feels that his friend is afraid that the police will catch him. So, he yells to his friend by saying "*What the **fuck** are you doing?*" to get the attention so that his friend can calm down To show contempt

The use of taboo words in a conversation between two people can also mean to show contempt. According to Oxford Advance, Learner's Dictionary (1995: 249), contempt means the impression in which a person or maybe something is useless and cannot be regarded. In other words, when someone tries to show contempt by using taboo words, he or she will insult the addressee by uttering words that can offend their pride.

Here is an example:

Cheddar: *I told you stupid-ass **niggas** not to be doing' that shit*
 Sol : *That rifle ain't mine. I don't want to go to jail.*

In the conversation above, it is clear that Cheddar's utterance using taboo words *ass*, *niggas*, is functioned to show contempt because he feels angry at Sol. Cheddar thinks that Sol brings a rifle, which is actually not his belonging. The taboo word "*niggas*" is another form of the word *nigger*, which means to insult black people's race.

c. To be provocative

When someone utters taboo words, he or she may have an intention to provoke a certain response such as violation or anger from others. This is in line with Rothwell (in Fitzgerald 2007: 17), who says that verbal obscenity can be the

most efficient symbolic process offered to protester intended for inviting chaotic reaction. Taboo words are considered successful when the response is suitable for the speaker's expectation.

Here is an example:

Jimmy: *I told you not to fucking sign me up. What the **fuck**?*
David: *You want to fight me now, huh?*

In the conversation above, Jimmy feels angry with David since he signs Jimmy up to a rap battle without his permission. Jimmy feels annoyed with David's act so that he utters the word fuck to provoke David's anger. David seems angry, and he wants to fight with Jimmy. In this conversation, Jimmy successfully provokes David's anger.

d. To mock authority

Sometimes people use taboo words when they are not satisfied with public images such as government and institutions. Rothwell (in Mc Guire, 1973: 6) asserts that verbal obscenity communicates a significant hatred for society's rule, a rebellion against power, as well as impertinence for things that are considered sacred. In other words, people used taboo words because they want to express their disappointment about a reality that is different from what they have expected. Therefore, some people may prefer to use certain taboo words that are directed to mock authority to show their disbelief about governmental stuff.

Here is an example:

Hoot: *Once that **first** bullet goes past your head, politics
and all that **shit** just goes right out the window.*

Steele: *I just want to do it right today.*

In the conversation above, the taboo word *shit* denotes that Hoot is so sick of politics and stuff related to it. To mock the political situation in his country, he uttered the words *shit* to emphasize his disappointment towards the political situation.

D. Male and Female Gamers

When playing online games, the interaction between teams is very important so that a victory is achieved in this PUBG game, available voice chat where players can interact directly with other players to coordinate and find out the position of the team and direct each other. But in its use, voice chat is often misused to mock each other, even though they don't know each other.

In general, according to Wicaksono (2019), gamers like to shout and harsh words when playing games online on smartphones or computers. He explains that the sounds and curse words issued when playing a game to give a warning of danger to the enemy or upset the enemy or just to just enliven at once overflowing emotions or the atmosphere that is shared. They regard it as normal among them. Therefore, when we meet with our friends at the office, campus, etc. when they are playing games busy themselves with the game and utters the taboo words. Sometimes they are utterances of harsh words such as *fuck*, *shit*, *bitch*, etc. not worth saying in our society.

According to Enery and Xiao (2003), the results of their study show that men use the word "fuck" and its derivatives are twice as many as women. Therefore, when playing online games, men tend to use taboo words like *fuck* to express

being frustrated or angry. While women can still control their anger without saying the taboo words. The word taboo is considered aggressive behavior related to emotional expression (Jansachewitz, 2008). The tendency of men to express the word strong taboo more than women underlines that men are generally more aggressive than women, and men's brains have a tendency to create more aggressive behavior than women's brains. Correspondingly, neuroanatomy in the human brain shows that male having a much smaller volume of the orbital frontal cortex than women and women having a far greater orbitofrontal-to-amygdala ratio than men.

Brendan Greene from Ireland establishes a PUBG game. PUBG PlayerUnknown's Battlegrounds is one of a game that includes gaming battle royal genre (Philips, 2018). The game battle royal genre is involving around to hundreds of players, who start with minimal equipment and then they have to eliminate all of their enemies while avoiding being trapped outside a shrinking "safe area", with the winner being the last surviving player or team (Wikipedia , n.d.). In this PUBG game, players can play solo, duo, and squad against their enemies.

When players start the game, they will jump from an airplane and use parachutes to various locations. A white circle indicating the play zone will appear, and the players must follow into the circle of the play zone. The PUBG play zone will be renewed and shrink when the circle time reaches zero, making some areas unsafe. Players who are outside in the white circle (play zone) they will bleed and die, then the white circle will shrink continuously and make all the

remaining players in the final circle fight to out to become the last player and win a chicken dinner (Cube, 2018). Chicken dinner is a party to celebrate the victory for PUBG gamers.

There are two kinds of PUBG games, namely PUBG game mobile and PUBG games PC. PUBG game mobile follows the trend of mobile games by implementing a rank system that you can increase when you play the game. This ranking system might aim to adjust game against other players who have the same rank or the same skill and also so that the game becomes fair and your experience is better. Whereas in PUBG Personal Computer (PC) which is the rank system does not exist and maybe it causes everyone to be put into an unfair game and makes the level of beginner player's game more difficult genre (Philips, 2018).

CHAPTER III

FINDING AND DISCUSSION

In this chapter, the results of the research are presented in detail on the findings and discussion section. The results answer the objectives of this research are to identify and to describe the types of English taboo words by Bastistella (2005), the functions of English taboo words by Wardaugh (2006), and the pattern of English taboo words used by male and female in PUBG Game videos on *Litomatoma* YouTube channel.

A. Finding

This section describes the findings of the research on taboo words uttered by PUBG gamers on *Litomatoma* YouTube channel. From the analysis process, total of data collected in this research is 132 data. There are 82 data of obscenity, 21 data of vulgarity, 24 data of profanity, and 9 data of Epithet. Based on the function of English taboo words by Wardaugh (2006), there are 95 data to draw attention to oneself, 44 data to show contempt, and 13 data to be provocative.

The next is explain detail type of English taboo words according to Bastistella (2005), and function of English taboo words according to Wardaugh (2006) and give some example of the type and function of English taboo words. However, all of the analysis of type and function of English taboo words in the videos PUBG gamers on *Litomatoma* YouTube channel are shown in Appendix 1. The data of the pattern of English taboo words used by male and female PUBG game on *Litomatoma* YouTube channel are shown in Appendix 2.

1. Types of English Taboo Words

From the analysis of the type of English taboo words by Bastistella (2005), the data collected in this research are 132 data and are displayed in Appendix 1. There are 4 types of English taboo words produced by PUBG Gamers on *Litomatoma* YouTube channel. They are obscenity, profanity, vulgarity, and epithet. The detail explanations are as follows:

a. Obscenity

Obscenity is the most dominant type used by PUBG Gamers on *Litomatoma* YouTube channel. Obscenity is defined as words or expressions which involve sex differentiating anatomy or sexual and excretory function that usually uttered roughly. The words that belong to this type are *fuck* and *shit*. Obscenity and vulgarity have the same reference, but both of them are different. The distinction between obscenity and vulgarity is related to the level of prurience. It is assumed that obscenity is forbidden from public use because it includes repulsion to the mind, hatred, impolite, and morality detestable.

In videos of PUBG games on *Litomatoma* YouTube channel, obscenity appears 82 data. There 44 data are produced by male, and 28 data is produced by the female, and the researcher will give only 4 data of them are presented below.

Datum 1:

Female: *Add me on Snapchat.*

Male 1: *What is your Snapchat girl?*

Female: *Its lemon stealing with two G'S*

Male 1: *Lemon stealing with two G'S?*

Female: *Yeah lemon stealing, ah huh*

Male 1: *Thot!! She is a **fucking** thot*

The conversation occurred when they were playing the PUBG game in the home. They were many people there, and they decided to be a team. The female said there was a male who has sound hot. Because of that, she asked them to follow her snap chat. One of them, the male 1, received her and asked, *what is your account, Snapchat girl?* After the male 1 asked it, suddenly, the female shot the male 1 and the male 1 uttered the word *fucking* to her.

The dialog above contains obscenity type because male 1 uttered the word *fucking* which describes a sexual activity in literal meaning. According to Oxford dictionary, the word *fuck* means have sex with somebody. This is suitable with the theory of obscenity that the word *fuck* is related to an act of sexuality. The male 1 uttered the word *fucking* toward the female who is trusted that they are in a team. The male 1 felt disappointed because she shot him. To show his expressions, he gave a negative response to her. Moreover, he felt angry with her. Another data is shown as follows.

Datum 2:

Male 2: *Bye, we are cannibals, yeah **fucking** these people. I will come with you guys.*

Male 1: *Yeah, you can join us.*

The conversation takes place in the rooftop. In this game, males 1, 2, 5, and female were a team. There were six people in their group, but only Male 1, 2, 5, and female were talking in the rooftop. When they were in the rooftop, the male 5 took his weapon. The female said, *“Don’t take it, it is dangerous.”* but he still put outside. The male 3 also put outside a smoke too much. The male 1 asked *“What’s*

going on in this smoke?" The male said *"No wonder it was yellow."* The male 1 was curious to them what they were doing there, and he thought that it is a party. Because the condition was very curious, the female shot the male 5, and he shocked, *why me?* Male 1 and the female directly leave them because they were not trusted to male 3 and 4. While male 2 followed male 1 and female. He felt the same thing and uttered the word *fucking* to them .

In the dialog, the male 2 uttered the word *fucking* to people in the rooftop, which is include to obscenity type. The word *fuck* is one of the strongest and most controversial taboo words in English because it refers to the act of sexual intercourse. It is considered as offensive and unacceptable in polite situations because it is lack of morality. According to oxford dictionary the word *fuck* means have sex with somebody. This is suitable with the theory of obscenity that the word *fuck* is related to an act of sexuality. The following data of obscenity is used by female, which is presented below.

Datum 3

Female: *Chace, is that actually you?*

Male 1: *yeah, there is only one Chace in the world so.*

Female: *Wait, Chace. Do you remember that time in elementary school, when you said that umm that I would not have any friends? I just want you to know Chace. You were **fucking** right dude.*

The dialogue happened when Chace came as a new member of their team. Chace introduced himself to others. The male 1 said he was such a good name. Chace was friendly; that's why they accepted Chace as their team. In the middle of the conversation, the female remembered one of her friends when she was in elementary school. She remembered that there was one of her friends named is

Chace, and she tried to make sure it and asked Chace. *Are you Chace?* Chace response, *yes, I am. Just only one Chace in this world.* The female laughed after heard it. Then the female told others when she was in Elementary School. She would not have any friends. For a long time, this statement answer by female and said taboo word *fucking* that is true when she was in elementary school. She would not have many friends in school.

The dialogue above contains obscenity type because the female uttered the word *fucking*, which described a sexual activity in the verb meaning, but in this context the word *fuck* meaning as interjection used to express anger, disgust, peremptory rejection, etc. According to oxford dictionary the word *fuck* means have sex with somebody. This is suitable with the theory of obscenity that the word *fuck* is related to an act of sexuality. Another datum is shown below.

Datum 4

Male 5: *Ahh, I have not got a gun.*

Male 6: *I fuck them. I will **fuck** them, oh never mind.*

Female: *yeah **fuck** them hard*

The dialogue happened in the yard when they were playing PUBG. The players consisted of male 1, 5, 6, and female. In the middle of the game, the male 1 said, looked at 300 m. Some players were trying to kill their team. They were shocked and uttered the word *fuck* to show their anger. The male 1, 5, 6, and the female were running up towards them. The enemy has still shot them. They have to make strategied to kill the enemy, but the enemy was too hard for them because they come early. Their team never had any strategy before. The male 1 tried to

lead this accident, and the male 1 asked the others to save the girl. The male 1 decided to asked the enemy to be friendly, but they were not willing. They were still shot the male 1's team. The male1's team tried to survive from the enemy, but they were stronger than the male 1's team. Finally, they fell one by one, and the game is over. The male 1's team was failed.

The conversation above contains the type of English taboo word that is obscenity because the male and female utter the taboo word *fuck* where that word has a bad meaning and is not good use in daily conversation because the meaning of *fuck* is an act of sexuality. According to Oxford dictionary, the word *fuck* means having sex with somebody. This is suitable with the theory of obscenity that the word *fuck* is related to an act of sexuality.

b. Vulgarity

Vulgarity differs from the other two above forms since it relates to words or phrases describing sexual anatomy and the role of excretory in rough words like *ass*, *tit-man*, *cock*, *dick*, and *cunt*. Vulgarity is assumed to be demonstrated as the street language. Hence the usage of vulgar language is typically a thing or a person to humiliate or put down.

In the videos, PUBG Gamers on *Litomatoma* YouTube channel the researcher finds 21 data which male and 13 data produce 8 data are produced by female and 4 of them are presented below

Datum 5

Male 5: *Why you touch **penis** dude, what you are doing.*

Female: *Oh My god.*

Male 1: *Sometime happened, sometimes happened*

Male 5: *stop that!*

The males 1, 5, and the female are a team. When they were walking in the area, they found a house. The male 1 invited his team to come to the house. There was a bad in the house. When they were in the house, they heard that there was a team fighting outside, so they decided to stay in the house to hide. They were afraid if they go to the house, they would meet the team and kill the male 1's team. To spend their time in the house, they were talking to each other and made a joke. The female is sat down in the chair while the 2 males were in bed. The female said that they were so cute when they are together in bed. In the middle of the conversation, the male 1 made a joke with touching the *penis* of the male 5. The male 5 shocks and utters the taboo word *penis*. The female just laughed to see them; they were so funny.

There is a taboo word *penis* that can be categorized as vulgarity type in the conversation above. The word *penis* is a vulgar term that refers to the human male genital organ. *Penis* refers to a excretory functions, The word *penis* is uttered by the male 5 in video 3 when it makes a conversation with male 1 and female. The dialogue happens while they were playing PUBG in the room. This is suitable with the theory of vulgarity that the word *penis* is related to expressions that contain sexual anatomy.

The next datum of vulgarity is also found in video 10 used by male 2 during the playing PUBG.

Datum 6

Male 2: *wait, where boobies?*

Male 3: *Hello?*

Male 2: *I was promised . Yeah, where are the boobies?*

Male 3: *They are coming. She is landing.*

Male 2: *right, I see her on top*

The males 2, 3 were in the same team. Before landing to the area the male 2 asked to their team that there are nudes at the farm and responded by his team “Are you sure?” The male 3 told that there were *boobies*. The male 2 answered “yes” and directly they land at the farm to look for *boobies*. After they landed, there were no *boobies* to be found. The *boobies* refer to a female. The male 2 found the *boobies* or female in the rooftop. They came near to the female and told there was a real *boobies*. The female was happy to see them. They were friendly. The male was so glad, if there was a girl joined their team. The males were trying to asked the girl if they can join their team. The female was thinking twice about that. She was afraid that the male would kill her. The male tried to make sure to convinced her and make her trusted them that they would not kill her. They would protect the girl. Finally, the female wanted to join in their team gladly.

The datum above is related to vulgarity because the word *boobies* refers to a sexual organ of human being. The word *boobies* also refers to the woman because the woman have *boobies*. The dialogue above happened when the female come to their team. This is suitable with the theory of vulgarity that the word *Boobies* is

Datum 7

Female: *Dude I'm just trying to get **dick** down, like can you please.add me on Snapchat. That all I want. Guys is this duo or squads?*

Male1: *Wow, a chick dude.*

Female: *Is this duo or squads?*

The female was so glad to join in the males' team and so excited. The female asked them, “*do they have a Snapchat?*” the male 1 responded by saying *yes*. The female asked what the account of their Snapchat are. The female asked because she wanted to continue the communication with the males in another place, not only in PUBG. Because of that, she asked them to follow her Snapchat. When she looked at her Snapchat, there were no people who followed her Snapchat yet. To make sure whether male has followed her Snapchat, she asked again to the males “*if they were done following her Snapchat?*” There are no males respond to her because they focus on their game. She is getting angry, because of that, she uttered the taboo word *dick* to them. The male was aware that she was mad at them, and directly they followed her Snapchat so that she was not angry with them again.

The male 1 and female were on the same team. They have 2 more players in their team, but they decided to kick them out from their team because there was something that made the male 1 and female feels suspicious. The example above is related to vulgarity because the word *cock* refers to a sexual organ of a human being. The word is uttered by female in video 6 when she made a conversation with the male 1 and other male there. The dialogue happens while they are playing PUBG in the field.

When they were playing with ex-team in the roof-top, they throw a smoke. When the male 1 asked, “*What is that?*” There was no answer, and his ex-team still thrown a smoke. When the male 1 and the female go, male 3 also followed them. The male asked them that they want to be part of their team. The male 1 accepts that.

In the dialog above, there is a vulgarity uttered by the female. i.e *cock*. Cock refers to excretory function. According to oxford dictionary the word cock is
