## ABSTRACT

Umi Cholifah, 10220028, *Reconstruction of Standard Contract Clause in Sharia Contract Law (A study on Standard Contract Clause at BTN Sharia)*. Thesis, Sharia Business Law Department, Sharia Faculty, The State Islamic University (UIN) of Maulana Malik Ibrahim Malang, 1<sup>st</sup> Supervisor: Dr. M. Nur Yasin, M.Ag., 2<sup>nd</sup> Supervisor: Dr. Sudirman, M.A.

**Key Words: Reconstruction, Standard Contract Clause, Sharia Contract Law**

The agreement on business transactions is parallel with the standard contract clause that facilitates the contract drafter. In its development, the sharia agencies also use standard contract clause for transaction. Although standard contract clause has put the sharia elements in it, but there are some weaknesses, either in the side of philosophical, sociological, or juridical. Therefore, the ease in transaction does not become the absolute reason to ignore these weaknesses. It needs to reconstruct and makes it more similar to the sharia contract law, either in principle or theory.

The focus of this research is about the form of sharia standard contract clause which has been applied at BTN Sharia and its ideal concept in Sharia Contract Law. The purpose of this reasearch is to identify the applicable form of sharia standard contract clause either from its advantage or its disadvantage, and afterwards they are analized. The result of this analysis is used as matter to reconstruct the sharia standard contract clause at BTN Sharia, thus it becomes the ideal standard contract clause in Sharia Contract Law.

This research is normative or doctrinal research focused on what is written in the legislation. It uses statute and conceptual approach. The method of data collection is conducted by doing literature study on primary, secondary, and tertiary legal materials. The analysis method of legal materials which is used is qualitative analysis by reduction, classification, display, and interpretation. It is focused on objective methods of interpretation.

The results of this research show that standard contract clause at BTN Sharia uses the general anatomy. However, it has the advantage and the disanvantages as matter of reconstruction. Finally, from this research it can be found the ideal concept of standard contract clause at BTN in Sharia Contract Law, such as: it must be simple and easy to understand, it defines the complex terms, it must be consistent with the contract used, it must be clear and not to burden one of the parties, it does not contain contrary clause in the contract, it must be coherent and clear in its placement parts and elements of contract clause. Afterward, this reconstruction concept becomes restriction which is able to accommodate all field of positive law relevance to remove logical contradiction within it and to provide clear and simple description in standard contract clause at BTN Sharia.

## ABSTRAK

Umi Cholifah,10220028 , *Rekonstruksi Klausula Kontrak Baku dalam Hukum Perjanjian Syariah (Studi Kasus pada Kontrak Baku di BTN Syariah)* . Skripsi, Jurusan Hukum Bisnis Syariah, Fakultas Syariah, Universitas Islam Negeri Maulana Malik Ibrahim Malang, Pembimbing I: Dr. M. Nur Yasin, M.Ag. Pembimbing II: Dr. Sudirman, M.A.

**Kata Kunci:** Rekonstruksi, Klausula Kontrak Baku, Hukum Perjanjian Syariah

Perjanjian pada transaksi bisnis sejalan dengan adanya klausula kontrak baku yang memudahkan para pihak pembuat perjanjian. Pada perkembangannya instansi- instansi syariah juga menggunakan klausula kontrak baku untuk kemudahan bertransaksi. Meskipun klausula kontrak baku tersebut telah memakai unsur syariah didalamnya, tetapi masih terdapat kelemahan baik dari segi filosofis, sosiologis, maupun yuridis. Oleh sebab itulah kemudahan dalam bertransaksi bukanlah alasan mutlak untuk mengabaikan kelemahan- kelemahan tersebut sehingga perlu dilakukan rekonstruksi agar lebih sesuai dengan Hukum Perjanjian Syariah baik dengan asas maupun teori yang terkait.

Fokus masalah dalam penelitian adalah mengenai bentuk klausula kontrak baku syariah yang sedang berlaku di BTN Sharia dan konsepnya yang ideal menurut Hukum Perjanjian Syariah. Tujuan penelitian ini untuk mengetahui bentuk dari klausula kontrak baku syariah baik dari kekurangan dan kelebihan yang kemudian dianalisis. Hasil analisis tersebut digunakan sebagai bahan untuk merekonstruksi klausula kontrak baku syariah di BTN syariah menjadi klausula kontrak baku yang ideal dalam Hukum Perjanjian Syariah.

Penelitian ini tergolong jenis penelitian hukum normatif atau penelitian doktrinal yang meneliti tentang apa yang tertulis dalam peraturan perundang-undangan. Pendekatan yang digunakan adalah pendekatan perundang- undangan dan pendekatan konseptual. Metode pengumpulan data dilakukan dengan cara studi pustaka terhadap bahan hukum primer, sekunder, maupun tersier. Metode analisis bahan hukum yang digunakan adalah analisis kualitatif dengan cara reduksi, klasifikasi, display, dan interpretasi yang difokuskan kepada metode penafsiran objektif.

Pada hasil penelitian ini ditemukan bahwa klausula kontrak baku di BTN syariah memakai anatomi kontrak pada umumnya, namun ditemukan kelebihan dan kekurangan didalamnya. Sehingga ditemukan konsep menurut Hukum Perjanjian Syariah untuk pembuatan klausula kontrak baku di BTN syariah yang ideal, yakni: kontrak harus sederhana dan mudah dipahami, terdapat pengertian pada istilah rumit, terdapat konsistensi pada akad yang dipakai, tidak ada klausula yang saling bertentangan, peletakan klausula yang runtut sesuai dengan anatomi dan element kontrak, tidak terdapat klausula yang tidak jelas dan memberatkan salah satu pihak. Pada akhirnya, konsep rekonstruksi ini menjadi batasan yang mampu mengakomodir semua bidang yang relevan dengan hukum positif, mampu

menghilangkan kontradiksi logis dan mampu memberikan gambaran yang jelas dan sederhana dalam klasula kontrak baku di BTN Syariah
